

COLON IS HELD BY INSURGENTS

Colombian Colonel is Persuaded to Embark With His Troops for Colombian Capital.

MARINES LANDED

Commander Hubbard Calls For Volunteers to Aid in Keeping Order Throughout The City.

(Special By Scripps-McLae.) Washington, Nov. 6.—Commander Hubbard announces in a long table received by the navy department that everything is so quiet at Colon and the insurgents are keeping most excellent order throughout the whole isthmus. He also states that the Colombian troops were not unwilling to leave and that everything looks well for the insurgent cause at the present time. Armed marines from the gunboat Nashville are ready to meet any emergency but all is so quiet that no trouble is expected.

A clash between United States marines from the gunboat Nashville and the Colombian troops was narrowly averted.

Col. Torres, commanding the Colombian forces, withdrew from the city Wednesday practically at the request of Commander Hubbard of the Nashville.

Thursday morning, however, Col. Torres unexpectedly marched his troops back into the center of the town.

Commander Hubbard promptly landed marines from the Nashville and stationed them around the bank and railroad buildings. Barricades of cotton bales were hastily erected and every preparation made to repel an attack from the Colombian forces.

Prepares for Battle. The Nashville was able to land only fifty marines, but Commander Hubbard called on American residents of Colon for aid. Fifty promptly responded. They were armed with rifles supplied from the Nashville.

In the meantime Commander Hubbard opened negotiations with Col. Torres, offering to re-embark the American force if the government troops would return to their camp on Monkey hill, where they passed the night.

Col. Torres, however, refused to return to Monkey hill, which is situated about a mile from Colon, saying the place was too unhealthy for the soldiers, and that it was necessary for them to come to town. He declared further that he was determined to give battle to any troops coming to Colon, from Panama.

Foreigners Are Frightened. The most intense excitement prevailed throughout the city. The panic, which was allayed Wednesday night, was renewed, and the foreign residents again sought refuge on board the ships in the harbor or in the buildings of the Panama railroad, which, as an American concern, was protected by the forces of the United States.

Popular anxiety was increased by the fear that the crew of the Nashville would be quite inadequate to cope with the situation should serious disturbances occur.

Finally the provisional government gave Col. Torres an ultimatum demanding the immediate withdrawal of the troops from Colon. He was informed that 1,200 separatist troops were en route for Colon and that the regular garrison troops in Colon had joined the new republic. The new republic offered to pay the passage money to Cartagena.

REBELS ASK AID FROM EUROPE NOW

San Domingo Insurgents Want Help From Across the Atlantic.

Puerto Plata, Nov. 6.—Dominican gunboats appeared here today to re-establish the blockade. The revolutionary president, Morales, summoned the foreign consuls today and explained that most of the republic is now in the hands of the revolutionists and that the foreign ministers at the capital were unable to communicate with their governments. He requested the consuls to send the news of the true situation to their governments, so that they could force President Wos y Gil to abdicate. The consuls replied that they were unable to act.

LIBERAL DEFEAT IN GREAT BRITAIN

Lord Balcarras A Conservative Is Re-elected By A Good Majority.

London, Nov. 6.—Lord Balcarras (conservative), eldest son of the earl of Crawford and Balcarras, has been re-elected to represent the Chorley division of Lancashire in the house of commons, on his appointment as junior lord of the treasury, by a majority of 1,428 over the liberal candidate, James Lawrence.

CHINA ENRAGED AT RUSSIANS

Members of Empress Councils Said To Have Favored Declaring War.

Peking, Nov. 6.—Yuan-Shih-Kai, viceroy of Chi Li province, who was dispatched to Mukden by the dowager empress, with instructions to investigate affairs there and if possible to arrange a settlement with the Russians, did not go any farther than Tien-Tsin, and may go no farther. The Chinese are more enraged at the Russian proceedings at Mukden than they have been by any events since the capture of Peking. Some of the hot-headed members of the council have advised the dowager empress to declare war on Russia and send troops to release the Tartar general, whose detention at Mukden, growing out of the decapitation of the Chinese bandit who had enlisted in the Russian service, but who fell into the hands of the Chinese after the Russians had evacuated Mukden, wounds Chinese susceptibilities, since it is considered to be not only an insult to high officials but as insulting to the Chinese government itself.

Better informed officials, however, realize the helplessness of China and the madness of attempting to go to war with Russia.

WARNING GIVEN RURAL RESIDENTS

Dane County Is Being Cleverly Worked by Schemer Who is Making Money.

Rock county farmers had best be warned by the experience of their brethren in Dane county and be wise about helping a stranger in trouble. The following is from the Wisconsin State Journal:

Some place in the western part of Dane county is a man giving his name as Paul Bush who is travelling about with a horse and buggy, both of which he says are gifts from Madison people. He also has in his possession two gold watches that he says were donated to him by Madisonians. He also asserts that he carries letters of endorsement from Mayor Groves, City Clerk Norman and the president of the "Christian Aid Society." Both the mayor and the city clerk deny having written a letter for any such person and as far as is known no "Christian" aid society exists in the city. Bush appeals to sympathetic people saying that he has been ill for some time and does not expect that he will thoroughly recover from his ailment for two years and that it will cost him \$1,200 to regain his health. He rattles off his personal property and solicits subscriptions. The farmers are a benevolent lot and Bush works a soliciting graft among them to a finish.

CITY TREASURER MAKING REPORT

Rush of Taxpayers is Less. Number of Delinquents About The Same As in Other Years.

City Treasurer Fathers has begun to make out his tax report as the usual application to the circuit court for judgment on the various lots and lands against which there remain unpaid taxes will be made. Also for special taxes for macadamizing Harrison street, between Court and St. Lawrence Place, also North High St. from Milwaukee street to the C. & N. W. R. Co.'s right of way, levied by the common council of the city of Janesville for the year 1903 and all persons interested therein are requested to attend such term of said court and offer their defense to such application. The rush of belated taxpayers is nearly over.

SPARKS FROM THE WIRES

F. W. Perrin of Albion, Mich., was killed by the cars at Parma while walking on the track.

Henry Wormley was found dead in his woodshed at Aurora, Ill. He was an old resident and apparently died from heart disease.

There are nearly 600 cases of scarletina in Havana, Cuba. Recoveries from the disease are generally rapid and there have been few deaths.

A street car at Peru, Ind., hit a buggy and Mrs. Peter Medary and Mrs. Silas Fisher were badly cut and bruised. Two children also were injured.

Lucinda Washington, colored, was shot and killed by Jim Beatty, colored, at Georgetown, Ky. On being pursued by the police Beatty killed himself.

Olla Dixon of Huntington, Ind., was awarded \$5,750 damages against the Fort Wayne and Southwestern Traction company, by a Wabash jury. Dixon was riding in a hack and was hit by a trolley car.

Following a trivial family quarrel John Link, a well-to-do farmer, went into a field near Marquette, Mich., seated himself on two sticks of dynamite and lit the fuse. A searching party gathered up his remains in a basket.

Officials of the Mormon church are negotiating for the old jail at Carthage, Ill. In which Joseph Smith, the Mormon prophet, and Brother Hiram were killed by a mob in the early history of the state. The intention is to preserve it as a memorial building.

BRITISH "PLUCK."

PANAMA REPUBLIC

Cabinet At Washington Decide To Recognize The New Republic and So Announce The Fact to Their Ministers and the Foreign Powers This Afternoon.

(Special By Scripps-McLae.) Washington, Nov. 6.—The United States has this afternoon recognized the new republic of Panama as a de facto government and has so announced the fact to the ministers of the different powers and to the consular agents now stationed in Panama. This action was agreed upon at a cabinet meeting held this morning. Instructions were called this afternoon to Minister Breuninger at Bogota, Colombia, and to the vice council at Panama. They were ordered to at once notify the republics of Panama and Colombia of the decision.

COLD WAVE HITS CHICAGO FIRST

HALF AN INCH OF SNOW FELL LAST NIGHT.

THEMOMETER IS VERY LOW

Rising Temperature is Predicted For Tomorrow. Snow Does Not Thaw.

(Special By Scripps-McLae.) Chicago, Nov. 6.—Chicago and the entire lake region is in the throes of the first winter storm of the season. The cold wave struck here yesterday with light flurries of snow and continued cold all night and this morning a half inch of snow was on the ground. The freezing weather did not permit it to melt. The disturbances are going toward the Atlantic coast and it is said that the weather throughout the west is to be much warmer tomorrow. There is much suffering among the poor owing to the sudden change but no cases of deaths from exposure have as yet been reported to the police.

GOOD SHEEP IN ROCK COUNTY

Many Transfers in This Part of State, Sherman's Lambs Top Chicago Market.

W. T. Sherman, the well known town of La Prairie farmer, sent a fine load of lambs into Chicago last week and they topped the market, bringing \$5.80 per hundred pounds, which beats any price given for consignments of "bleaters" this fall. The lambs were a splendid bunch, averaging 88 pounds apiece. There has been an unusual movement of sheep around Rock county during the last month, according to some farmers. One man said that more transfers had taken place in this vicinity during the last three weeks than he had known for a number of years. Several carloads were bought in Chicago and re-shipped here and a number of other carloads were bought in different parts of Wisconsin and sent in. George Charlton bought several flocks out in the state and Sam Locke also shipped in sheep for fattening.

CAR MEN STRIKE

(Special By Scripps-McLae.) Chicago, Ill., Nov. 6.—Employees of the Chicago City Railway company which operates lines on the South Side, have voted to stick to the demand for an increase in salary and recognition of the union.

Frogs are prevalent in Racine owing to a severe storm Thursday night.

BRYAN WINS HIS FIFTY THOUSAND

PROBATE JUDGE DECLARES BENNETT WILL IS VALID.

USED NO UNDUE INFLUENCE

Case May Be Appealed To A Higher Court Because Of The Decision.

(Special By Scripps-McLae.) New Haven, Conn., Nov. 6.—Probate Judge Cleveland this morning handed down a decision in the admission to probate of the will of the late Philo Bennett in which William J. Bryan is completely exonerated from all alleged exertion of undue influence in having the deceased bequeath to Mr. Bryan \$50,000 of his vast fortune. This decision completely clears Mr. Bryan of the charges brought against him; of using undue influence to secure the bequest from the late Mr. Bennett. The matter has become a national question and Judge Cleveland's decision will probably be appealed by the heirs of the estate.

DOES NOT FEAR EARTH OPENING

Professor Comstock of the University Scoffs at Sun Spots.

Prof. C. G. Comstock, director of the Washburn observatory of the University of Wisconsin, agrees in part with the St. Louis scientist who says the earthquakes of Wednesday were due to the sun spots. Prof. Comstock, however, does not fear the dire consequences predicted by the southern man. If any earthquakes occur outside the regular zones, says Prof. Comstock, they will probably be due to the disturbances in the sun. While the electric disturbances have been exceedingly severe during the past three days, they are not severe enough to cause any apprehension. The heavens have been overcast this week and Prof. Comstock has consequently not been unable to note the changes in the sun.

Many Americans Go to Canada.

Ottawa, Ont., Nov. 6.—A return given out by the interior department shows that during the ten months of the calendar year ending Oct. 30 121,115 immigrants had arrived in Canada. Of these 39,046 were from the United States, 47,341 from the British Isles and 34,528 from the continent of Europe.

A Sheboygan family was poisoned by eating cheese.

DAIRY SCHOOL HAS GOOD START

Opens With Largest Attendance in History—Fancy Cheese Making.

The dairy school of the university opened Thursday with the biggest attendance in its history. There are accommodations and buildings for 150 students. The registration is at present 130. U. S. Baer, the head cheese instructor, has received letters from eight or ten others who come through the week. The number is not yet closed. This is the largest attendance this department has ever had.

The students are from California, Washington, Oregon, Nebraska, Minnesota, Pennsylvania, Wisconsin, Maine and Canada. Among them are a number of married men who have brought their wives with them to spend the winter in Madison. Several are graduates of various agricultural colleges. Sidney T. Thompson of Maine is the state dairy and food commissioner. A number of the students are middle-aged men; a considerable number have had years of experience in butter and cheese making. There are eight students from Green county.

VENEZUELA CASE IS UP ONCE MORE

British Minister Criticizes Wayne MacVeagh's Statements at The Hague.

The Hague, Nov. 6.—The feature of today's session of the Venezuela arbitration tribunal was Attorney General Finley's attack on Wayne MacVeagh, senior counsel for the United States. The British attorney general criticized MacVeagh's complaint that Great Britain had permitted a British warship to assist Gen. Matos, who was leader of the revolution against President Castro. The solicitor general also criticized the mutilation of telegrams and official documents in the Venezuelan memoranda, whereupon Minister Bowen, in behalf of Venezuela, interrupted him, and said the official text of all the documents had been communicated by Venezuela simultaneously with the memoranda.

Proceeding the solicitor general urged that Great Britain had insisted that Venezuela should give adequate guarantee for the payment of all claims against her, and added that Great Britain did not consent to the non-blockading powers sharing in the 30 per cent. of the customs on a basis of equality.

The German agent, Herr Buenz, upheld the claims of the blockading powers for preference, which, he declared, were based on the solemn promise of President Castro. Germany had proposed to arbitrate her differences July 16, 1901, but Venezuela did not deny to reply. Without war, the German agent claimed, nothing would have been achieved.

INVITES POPE TO ATTEND THE FAIR

William E. Curtis Given Private Audience With His Holiness.

Rome, Nov. 6.—William E. Curtis was received in private audience by the pope today at the vatican, and extended to his holiness an invitation to send a distinguished ecclesiastic as the commissioner of the holy see to the St. Louis exposition besides an exhibit of the treasures of the vatican. The pope in reply said he was greatly pleased with the compliment paid him, and added that he would do all possible to comply with the requests contained in the invitation.

GOES TO PRISON

(Special By Scripps-McLae.) New York, Nov. 6.—Sam Parks, walking delegate, was found guilty of extorting bribes this morning and was sentenced to two and one-half years in Sing Sing. His sentence began at noon today.

STATE NOTES

John Boothby has purchased the Hammond News from F. L. Barry and will publish it as an administration sheet.

The Upper Mississippi River Pilots' association will meet at La Crosse next week to disband on account of the decline of rafting business.

Mr. and Mrs. W. D. Macy of Beloit have started for London, where Mr. Macy will superintend the erection of paper making machinery made by the Beloit iron works.

A team belonging to G. S. McDonald, while hauling lumber, collided with an Appleton-Noenah electric car at Appleton. The wagon was demolished and one horse killed.

Sales of real estate in the county of Outagamie for the fiscal year ending Sept. 1, 1903, amounted to \$1,807,030, and the assessed valuation of the property was \$1,346,070.

J. P. Rundle, department commander, and W. H. Richardson, assistant adjutant general of the Wisconsin department, G. A. R., were speakers at a campfire at Milton Thursday night.

The annual tax levy for Madison is to be \$227,671.34 this year, an increase of \$27,700 over that of last year. The rate will be .012. The total amount of taxes will be greater than last year because of the decreased valuation of assessable property.

NIXON MAKES BITTER ATTACK

Accuses Council For Schwab of Using Underhand Methods in His Examinations.

CHANGES TACTICS

Council Endeavors to Show There Was No Competition Between Steel Companies in Prices.

New York, Nov. 6.—The features of Thursday's session of the hearing in the United States Shipbuilding case were a bitter attack made by Lewis Nixon upon William D. Guthrie, counsel for the defendants and representative of the interests of Charles M. Schwab, for his methods of cross-examination; leading questions by Mr. Untermyer, counsel for the complainants, as to the absence of competition between the Bethlehem Steel company and the Carnegie plant of the United States Steel corporation in government contracts for armor plate, and the entire change of of Mr. Guthrie, who heretofore had aimed to bring out the fact that the value of the constituent plants of the United States Shipbuilding company was not overestimated.

Nixon Enters Protest.

Mr. Guthrie adopted a line of questioning designed to show that the estimates of value were made by the promoter, the vendors and other interested or inept appraisers, and were practically without weight in determining the exact value of the plants and the assets of the consolidation.

Mr. Nixon was on the stand all day. His cross-examination was finished and the re-direct examination partly completed. At the opening of the afternoon session he presented a personal protest in which he declared that Mr. Guthrie, in consultation with Max Pam, had adopted a line of questioning designed to place him in a false and discreditable position regarding the sale of his plant to the shipbuilding consolidation. The protest was angry and bitter in tone, and intimated that Mr. Guthrie had been unfair in asking him to answer from memory questions about the finances of his company without opportunity to look up the details, while Guthrie had had the benefit of a full investigation of the figures.

By agreement of the counsel the protest was stricken from the record, but Mr. Nixon thereafter during the hearing insisted that if he were to answer questions he should be allowed to make the necessary explanations.

JANESVILLE FOND OF ENGLISH WALNUTS

Whole Carload Valued at \$2,000 Arrived Yesterday from California. A Big Consignment.

Janesville likes walnuts and is to have them in abundance this winter. A whole carload, the largest single consignment ever sent to any city in Wisconsin, with the exception of Milwaukee, was received by the Janesville Wholesale Grocery Co. yesterday. The nuts are of the "soft-shell" variety, known in the market as English walnuts, and were grown in California. The value of the carload was approximately \$2,000.

FIRE FIGHTER IN THE CITY

Chief of Elgin Department The Guest of H. C. Klein. Inspected Local Apparatus.

Fire Chief John M. Geddies of the Elgin department arrived in the city yesterday morning as the guest of Chief Klein. He inspected the local apparatus and spoke highly of the Janesville equipment, appearance of the stations and the men. The Illinois fire fighter is visiting different towns looking over apparatus as several additions to his own force are to be made soon. He left on a morning train.

ON ONE OF JANESVILLE'S ABOMINABLE SIDE-WALKS

Washington Street Resident Sustained Injuries Today.

Janesville's bad sidewalks may yet prove a costly luxury to the city. A resident of Washington street while on his way to his work this morning received a terrible fall owing to a piece of defective walk between the intersections of Ravine and Bluff street. His face, hands, and body were badly bruised and it was little less than a miracle that bones were not fractured. The walk in question is constructed of inch-boards with no center stringers. One of these was loose and rotten and when the Washington street man stepped on one end of it he went through to the ground while the other end flew up and struck him in the face. He is not a "kicker" and does not wish his name mentioned.

## ALONG NORTH RIVER STREET

A THOROUGHFARE UNBEAUTIFUL BUT VERY BUSY.

## FOOD, SHELTER AND RAIMENT

For Thousands is Being Prepared Every Day in Its Hustling Mills and Factories.

North River street has a row of busy factories, mills, and shops more diversified in their output and perhaps larger in their scope, from the standpoint of labor employed, than those prosperous enterprises of N. Main street which were mentioned at some length in these pages several days ago.

Randall & Athon's shops in the old Belding Machine Co.'s building are the first encountered as one turns off from Milwaukee street onto the crookedly unpromising thoroughfare that follows the river bank. Here a small crew of men are busy turning out clamps, bolt-drivers, fountain pen lathes, and other specialties for which the outside world is showing an increasing demand. Two more men are to be added to the force within the next few days.

Jeffries Lumber Co. Fred Rohl is the genial superintendent of the 94 workmen in the Jeffries Sash & Door factory who have just completed 2,100 windows for the Royal Exchange building in Chicago and are at present engaged in making the interior finishings of quarter-sawn white oak for two of Iowa City's new university buildings and moldings for seven large houses at Sioux Falls, South Dakota.

Southern Gum Wood. The company are cutting up an average of two car loads of lumber a day. Mr. Rohl. "It comes from all of the compass. White pine and bass-wood is high in and Southern gum wood is best to supply both of these. Southern yellow pine is the cheapest wood we can get for interior finishings. It cannot be used for sashes on account of the enormous amount of pitch it contains but is excellent for moldings and baseboards."

Blodgett Milling Co. Alluring visions of a million "stacks" of smoking griddle cakes rise before the casual visitor at the Blodgett Mills when he is informed that 75 barrels of buckwheat flour have been turned out each day during the past month and that the same output is expected until February 1. Rye flour is staple all the year round and the average production amounts to 500 barrels a day. The mill employs thirty men and runs day and night.

Rye and Buckwheat. "Most of our buckwheat comes from Pennsylvania, New York, and central Wisconsin," said Secretary and Treasurer, D. W. Holmes. Little or none is grown in this region. Considerable rye is grown in Rock county, the most of it around Deloit. The farmers are increasing their acreage in the latter cereal every year. Both the rye and buckwheat crops have been very good this year.

The Cotton Mills. The busy season is just over at the Rock River Cotton Co.'s mills. The stock is well reduced and has cleaned out nicely this year. The plant is running full force on orders and there are a hundred hands employed in making the batting, twine and comforters. "Business has been very satisfactory this year as far as volume is concerned, though prices for the finished products have been low when the cost of the raw material is taken into consideration," said T. O. Howe.

Last Year's Crop Poor. "Our margin of profit has therefore not been so large as in some previous years. Last year's cotton crop was poor and the price was high. Our experience is the common one of most manufacturers. We must be satisfied if out of every five years there are two good ones in which the cost of raw material, purchased at the opportune moment, stands in such a relation to the price of the finished product that a large margin of profit remains."

Marzluff Shoe Co. "We are in the midst of an inventory and cannot spare a moment," said F. M. Marzluff to the newspaper representative.

"How many are employed here?" "One hundred and ten at the present time."

The factory appeared to be in a prosperous condition.

Badger State Machine Co. The Badger State Machine Co. is busy with its regular lines of punches and shears but in addition to these is engaged in the manufacture of a new line of tools of a character never before placed on the market. A new line of wood working machinery fully protected by patents, is also to be manufactured on a large scale.

Electrical Repair Works. C. H. Messer's electrical repair works are in the same building. The work of rebuilding a thirty-five horse power motor has just been completed.

## DANCE A SUCCESS LAST NIGHT

Laurel Lodge Gave Pleasant Function at Odd Fellows Hall. Members of the Laurel lodge turned out in force last evening and over sixty couples, including friends of the order were present at the East Side Odd Fellows hall. Prof. Smith's orchestra furnished the music and the festivities continued until 12 o'clock. The next entertainment of the order will be given by the ladies on November 19th and will be a card party.

The health and strength of every organ is controlled by the stomach. That's where A. B. C. Family Tea acts directly, then happiness follows. 25c a package. Badger Drug Co.

## MANY INVENTIONS MADE RECENTLY

Report From Washington Of Patents Given To Badgers Throughout The State.

R. W. Bishop, Patent Attorney, Washington, D. C., reports the issue of the following patents on the 3rd, instant to residents of Wisconsin.

742,862. Printer's case. H. P. Hamilton, Two Rivers, assignor to Hamilton Mfg. Co.  
742,881. Latch. O. C. Little, Menasha.  
742,882. Window fastener. O. C. Little, Menasha.  
742,958. Disk harrow. H. S. Howard, Madison.  
743,076. Combination tool. W. G. Harris, Oconto.  
743,082. Dynamo machine. D. C. Jackson, Madison.  
743,154. Metallic packing. W. R. Edwards, Ernest Wisch and H. N. Breneman, Milwaukee.  
743,191. Gas light controller. Peter Rademacher, Kaukauna.  
743,247. Log turner. C. E. Cleveland, Fond du Lac.  
743,299. Pump. F. C. Lewis, Milwaukee.  
743,330. Cowl. W. J. Kayser, Green Bay, assignor to Hillmar Danz, same place.

## BANNER YEAR IN HUNTING PERMITS

County Clerk's Office Will Issue More This Season Than Ever Before.

The total number of hunting licenses issued from the county clerk's office for each of the two years just past shows a large increase over the previous years. At the close of the season of 1901 Clerk Starr's record shows that 1025 licenses were issued to Rock county hunters and in the period allowed for hunting following 1350 sportsmen paid out their hard earned dollars for permission to hunt the haunts of forest and meadow.

1257 This Year. The number of permits taken out so far this year, show that the season of 1903 will probably far out number previous records as 1257 men have already shown their intention to take to the woods. This increase is despite the diminishing quantity of game consequently upon the westward tide and encroachments of people from the more thickly populated east. Again, the larger number is all the more remarkable in the light of legislative enactments which each succeeding year have restricted more and more the hunting of all kinds of game.

Greatest Number Last Year. Up to the present time, the season of 1902 held the record for the largest number, for a total of 1350 resident hunters were issued to Rock county citizens. As shown by the figures, last year witnessed a marked increase from the number of the previous season, while the total for the present time, still open and subject to a still greater increase, shows that the allotted period will end the largest number yet issued.

Will Reach Two Thousand. Of the total issued thus far, nearly a third were to residents of the city and town of Janesville. County Clerk Starr believes that the total this spring will reach the two thousand mark. However, despite the reports of the ever increasing scarcity of game, the hunters who have been out in Rock county and in neighboring counties this year bring in considerable quarry, even more than the average. It is thought by those who are best able to judge.

Rabbits Plentiful. Rabbits, for instance, are or appear to be exceedingly plentiful. Foxes too, have seemed to multiply for several have been seen and a number shot already this fall. Two have been observed in the immediate vicinity of the city during the last two weeks, according to the reports of hunters whose veracity cannot be doubted. The beautiful specimen seen in Pierson's window, which was mounted by that gentleman, was shot only about eight miles up the river.

Please look at Mrs. Austin's New Dress.

TINKER SMITH THROWN OVER

Wife Has Secured Divorce on Grounds of Non-Support. Tinker in Prison.

Mrs. Mary Smith of this city was yesterday granted a divorce from Frank Smith who a better known here as "Tinker." The defendant in the action is now serving a term in the state prison. According to the papers served the plaintiff and the defendant were married in the city of Monroe in 1899 and according to the complaint, the defendant for several years has been practically no help to his wife.

Please look at Mrs. Austin's New Dress.

BICKNELL YOUNG WAS ONCE NOTED MUSICIAN

Christian Science Lecturer Speaks at Myers Grand

Bicknell Young, who will deliver a special lecture tonight at the Myers Grand theatre, was a musician of note before he became a Christian Scientist. He was born in England, of American parents, and became a teacher of music in 1890. The same year he took up Christian Science work, and soon was promoted to be a reader in the church. Later he was appointed a lecturer and his work has materially augmented the Christian Science following.

Please look at Mrs. Austin's New Dress.

## SETS TIRES IN A FEW MINUTES

WISCONSIN CARRIAGE WORKS HAS NOVEL MACHINE NOW.

IT WASTES NO TIME Pressure is Exerted to The Wheel Evenly and Quickly Does The Work.

The Wisconsin Carriage company has recently installed a machine which enables them to set tires to new wheels, and reset old tires for about half the expense of the old method, taking about one-tenth the time necessary in the old and obviates the necessity of heating the iron at all.

The name of the apparatus is the West Hydraulic Tire setter and it is the first and only instrument of its kind in Janesville. The only other machine, so far as is known in this state is at Milwaukee.

With this system, tires can be "set while you wait" as it takes but 15 minutes to secure loose tires to four wheels, when by the old way practically a day must be taken for the work. In resetting, the tires are not taken from the wheel at all, the latter is simply laid in the apparatus and in almost no time at all, the work is done and done far better than in the old and cumbersome way.

Apparatus is Simple To describe the machine in general it might be said to resemble a low, round table with the center removed so that only the circular rim is left.

This "rim" is made up of a series of fifteen small oil reservoirs. Inside of these are pistons at the inner end of which are jackets. These fit against the tire as the wheel is laid in the center or bed of the apparatus. Ordinary machine oil is pumped into the reservoirs and the jackets are forced against the tire at every point, thus distributing the pressure evenly at every part of the wheel. A lever extends across the top, to hold the wheel in place and regulate the "dash," which it does perfectly. The pressure on every part of the tire forces the particles of iron together and so to speak, shrinks the metal so that the tire is again tight on the rim of the wheel. In resetting the bolts do not have to be removed and less than a quarter of the number of operations are necessary.

No Charring of Rim. One of the objections of the old method of resetting tires is that the heated iron chars a portion of the rim. This charred wood wears away under the wear of the wheel and this is a cause for the rim soon becoming loose, unless the wood is continually damped. The machine exerts a pressure of 2000 pounds to the square inch and any sized tire can be set in it from 3/4 to 1 3/8x3-8 thickness.

There are in the neighborhood of seventy-two bolts in carriage and wagon wheels and it is a tiresome task removing and replacing these as has to be done when tires are set in the old fashioned method. In the new way the bolts are not touched at all and therefore are less likely to come loose and be lost. It takes but one man to manage the hydraulic tire setter and the operation of securing the tire to the wheel is done so quickly and so perfectly that the apparatus seems more than wonderful in its action.

## ROCK COUNTY IS VERY PROSPEROUS

Is Tenth in The List Of Counties in Per Capita Wealth

From figures compiled on the basis of the property valuations of the state board of assessments the southern tier of counties in the state are shown to be the richest. They also show that the average wealth of the citizen of this beautiful state is \$750.08 and that the total valuation of property owned in the state is \$1,753,170,000 of which amount \$1,309,504,464 is in real estate and the remainder \$443,665,536 is in personal property. Forest county inhabitants own \$2,426.24 each that is if all the money was equally divided and is the banner county of the state. Burnett county is last on the list and the per capita wealth is but \$312.77.

Rock Well Up. Rock county is among the wealthy counties and is tenth on the list with a per capita valuation of \$1,115.07. The other eleven counties which are over the thousand dollar mark per capita are Forest, Walworth, Green, Waukesha, Milwaukee, Jefferson, Dodge, Dane, LaFayette, then comes Rock and followed by Kenosha and Washington county.

Interesting Facts. A study of the report shows many interesting facts. Taking out Forest county which is but scarcely settled the richest counties in the state, are the prosperous dairy and agricultural counties in the southern part of the state. The average in these counties vary but very little. Bayfield and Vilas counties lead in these of the north and poor Burnett is last on the list.

Miss Annie Euland, Little Falls, Minn. "I like Rocky Mountain Tea very much, will not be without it." Greatest remedy on earth for suffering women. 35 cents. Smith's Pharmacy.

Real Estate Transfers Peter Fonda & Wife to Fred Frank \$5050.00 nt w/4 s1/4 & s w/4 of s w/4 nw/4 163dd.

Do you feel mean, tired, fagged out, all run down, no life? Why not take Rocky Mountain Tea? Makes you well and keeps you well. 35 cents. Smith's Pharmacy.

## FAIRFIELD PEOPLE HAVE TROUBLE

Divorce Proceedings Filed Yesterday. Prominent People Involved.

Mrs. Mary Morris of the town of Fairfield has begun suit for divorce from Henry Morris, a well known creameryman in that town. The parties to the action are prominent in church and business circles of Fairfield and the affair is causing a sensation in the little village. The plaintiff claims cruel and inhuman treatment.

All diseases start in the bowels. Keep the liver and bowels active without a sickening, griping feeling by using A. B. C. Family Tea. 25c a package. Badger Drug Co.

## DELIGHTFUL TRIP THROUGH OKLAHOMA.

What Mr. Domer, of the Firm of Dower & Felker, Thinks of the Country Compared to Northwest.

Messrs. Domer and Felker have just returned from a trip to Oklahoma in a special tourist car, with J. G. Lund, of Lund's Land Agency, of Minneapolis, and a party of twenty four main state agents. After a careful inspection, lasting ten days, the party decided that the country was not the place for northern people to invest their money in. In an interview with Mr. Domer I was given some very interesting data regarding the territory of Oklahoma and the character of the soil and crops raised there. Mr. Domer states that the farmers in this part of the country depend entirely upon wheat and cotton for staple crops. There is little or no pasture land and few cattle or hogs are raised. At the present time the stock is in very poor condition and not well fed. The cattle feed on wheat from July until spring and during the remainder of the year, according to Mr. Domer, they do the best they can. The soil which is a brick red color, is sand and clay mixed, very gritty and the fine dust arising from the ground makes it almost impossible for the alien to breathe. There are few bottom lands and the best of these are government allotment to the Indians and these are leased by them to the white people. In fact Mr. Domer says, the Indian seems to have the best of everything. The rivers are entirely dry and there is a great deal of typhoid fever while there is no water fit for drinking purposes for northern people. The settlers are sallow and thin and out of the twenty-four tourists which were in the Lund party there were only three who weighed less than 200 pounds. Mr. Domer mentioned this fact to show how much more healthy the northern men appeared to be. The lands in Oklahoma are out of all proportion as regards price, costing from \$5000 to \$15000 for a quarter section, according to improvements and locations. Interest on farm loans runs from 12 1/2 to 17 per cent. The banks charging nothing less than 12 1/2 per cent. The soil of the bottom lands is mostly white clay mixed with dark sand, very different from the deep black loam and yellow clay sub-soil of the lands in South Dakota, where this company have recently purchased sixty quarter sections in Clark county. The party from the north was royally entertained while in Oklahoma and was banqueting at every stop. They covered the territory very thoroughly, making stops at the following places Enid, Chickasha, (an Indian territory) Anadarko, Habart, Mangum, Lawton, El Reno, Oklahoma City and Shawnee. At each place they divided into sets of four and drove over the surrounding country for half a day or longer. The penetrating dust made the drives, over the greater part, anything but pleasant, even though the residents did all in their power to make things enjoyable. Mr. Domer says that after very careful consideration they have fully decided that the northwest is the only place for safe investment for the northern man with money. One of the Lund excursions left on last Saturday night for South Dakota accompanied by Mr. Felker, of the firm. A special car will leave here Nov. 16th for Clark, Clark county, South Dakota, where the Lund company own large tracts of exceptionally fine land which they are placing on the market for persons wishing the best sort of real estate investment. These excursions are run every first and third Monday night of each month. Transportation is furnished at one fare plus \$2 for round trip which includes free sleepers. A man wishing to invest would do well to talk to Messrs. Domer & Felker at their office in the Hayes block.

## ...Forty Years Ago...

Janesville Daily Gazette, Friday to the heart's core to learn that so brave and sagacious a general as Capt. Griffith gives the vote of the 22nd regiment at Murfreesboro. It gives Lewis 433, Palmer 10.

This state has gone "loft" by from 20,000 up to any figure that may be asked. We hope the Jacobins are satisfied. We are. We are in hospital, to day, with strong convalescing symptoms—Madison Patriot.

Your sickness is mortal. Neither medicine nor time will save you.

Maryland Too!—Maryland "keeps step to the music of the Union". All the unconditional Union candidates for congress are elected.

The removal of Rosecrans.—The Nashville correspondent of the Missouri Democrat gives the following reasons for the removal of Rosecrans:

There was a necessity for calling a large part of Gen. Grant's army to the aid of Rosecrans forces, and as Grant would outrank him, and ill feeling and grown up between them out of the events of the battle of luka, in the fall of 1862, the former preferred not to serve under General Grant. This is the most charitable view of the case, for all soundly loyal men would feel pained sphere.

Dictionary of "Ladies' Dress." (Compiled by an old bachelor of forty years experience)—Gimp—A sort of nail used in their high-heeled boots, or something to do with the ring of a parasol—can't make out which.

Gussets—Same as "linsey woolsey"—I think, a fine calf skin leather, for ornamenting riding habits. Note.—It has very sharp prickles, as I found once when I sat down on a bonnet made of it, mistaking the thing for a bunch of flowers.

Tulle—Not yet sure of this, but suspect it is the needle they use in backstitch.

Bombazine—Much mystery about this. Four years ago, however, I satisfied myself it has something to do with baby's boots. Sometimes it is called a "love of a hare".

Dimity—A regular poser this. Used to think it was a "finger stall", but have found out now it is a sort of ball put inside the back hair to fill it out.

Critoline—Man's, horror—woman's, soundly loyal men would feel pained sphere.

## COUNTY NEWS

**MILTON JUNCTION** Nov. 4.—Mr. and Mrs. Wesley Winch opened their house Tuesday to the friends and admirers of The Christian Crusaders to witness the marriage of two of their members. Mr. Ralph Leicher and Miss Estell Bradwell. The ceremony was performed at 8 o'clock by Rev. George Trovor of White-water assisted by Rev. Starkweather of this place. The guests numbered forty, and the wedding supper and the decorations which were of yellow and white chrysanthemums were furnished by the guests. Capt. and Mrs. Leicher attended the couple. Mr. Leicher's father to Capt. and Ralph Leicher was present. The newly married pair took the 9:30 train for Edgerton. They are now holding Evangelistic meetings at Elkhorn.

The farmers who raise sugar beets and drove in with loads some coming five or six miles last Monday morning, and found no cars for them to use felt like using great big swear words and we don't blame them. What they would really like to know is whether there are really no cars to be had or whether the sugar company do not want the beets just yet.

Mr. and Mrs. James, Stockman have gone to keeping house in rooms at Nettie Coon's.

Lane Partridge has moved into Stewart Chamber's house, on the south side. Mr. Richmond has moved into Mrs. Mary Dabcock's house in town.

Dean Wm. D. West and wife have gone to Alfred and Nite, N. Y., for a month's visit with their daughter.

Mrs. Hannah Burdick returned last week from a nine months stay with her daughter, Mrs. Shaw in Plainfield, N. J.

Claude Howard, of St. Paul, Minn., is spending some time at E. D. Coon's.

Mrs. Dodge, of Fulton, was in this vicinity the past week selling nursery stock.

Another little girl has come to make her home with Mr. and Mrs. Frank Grey.

Mrs. M. J. Clarke has been obliged to go to Chicago to take more treatment for her throat, which is troubling her very much.

Halloween parties were held at Jesse Lawton's and Russell Frink's. Mr. and Mrs. Garthwaite, of N. Y., are visiting relatives here.

Miss Mercy Garthwaite returned from her N. D. visit much improved in health.

Amos Beach has again shown signs of insanity and was taken to Mendota this week.

Mr. James Richmond is in Chicago.

**JANESVILLE** Nov. 4.—The stock sale on the Walter Little farm was well attended and the cattle offered for sale brought good prices.

Col. Barclay, of Iowa, assisted by W. T. Dooley conducted the sale for Walter Little.

Prof. Shaw of the agricultural college of Minnesota, gave a short talk before the sale commenced.

Cap. Vankirk, O. H. Fethers, F. C. Cook, Andrew Scott, Chas. Daly and Henry Tall from the city attended the sale Wednesday afternoon.

J. E. Gleason and J. D. Little of La Prairie and Irving Van Gilder, of Shoplex, were at the Little sale.

James Little, Jr., spent last Sunday with John Flager and family.

Miss Bessie Scott spent Wednesday afternoon with Mrs. Frank Welch.

Mrs. W. B. Little and daughter visited friends in the city Tuesday.

Mrs. W. J. Kennedy was in the city Monday.

John Passel and wife visited with friends in Center Tuesday afternoon.

Mrs. John Turnbull is visiting at Frank Lowry and family at Footville.

George Carlton has bought 100 acres of land of the O. Brooks estate adjoining his farm on the west.

George Barker and B. L. Gage attended the sale Wednesday.

**FOOTVILLE** Nov. 4.—The Misses Hemmingway are in town these days doing work for some of our ladies.

The band boys will give an oyster supper at the home of Mr. and Mrs. Mattice on Wednesday evening. An interesting program will be given, all are cordially invited to attend.

All of the business houses in town

will be closed at 8 o'clock every night except on Saturday evening.

The Whitewater Normal Male Quartet will give one of their high class parlor entertainments in the hall on Saturday evening, for the benefit of the library. Admission 25 and 15 cents.

The social at A. Esplanwall's, on Friday evening was largely attended and a very enjoyable time was had by all. About \$30 was taken in.

Elizabeth Odgen, of Janesville, is and Mrs. Hawk, of South Chicago, are guests of Mrs. Sarah Richards.

Mrs. Tuttle is visiting her sister, Mrs. K. J. Bonis.

Miss Ellen King of Janesville, is calling on old friends here.

Mrs. Mattice will have a fine line of new hats Saturday all of the latest styles will be ready for the inspection of the ladies.

Frank Lowry's repair shop is now running full blast.

The boys who tipped the slide walk over on Halloween night are known, and prosecutions are quite likely to follow. Such work is anything but smart and is more the mischief of vandals than of law abiding citizens. It is to be hoped that the like shall never be repeated.

On Wednesday evening the many friends of T. D. Pepper surprised him and during the evening presented him with a fine Morris chair.

**MILTON** Nov. 7.—Remember the Swift entertainment for the benefit of the College library Tuesday evening. It is not only instructive, but also pleasing and helps a worthy cause.

J. R. Howard is no longer in the employ of T. A. Saunders and M. R. Monroe takes his place.

Presiding Elder Perry Millar, of Appleton, visited his father and sister Wednesday.

Mrs. O. P. Froehorn has been quite ill, but is improving.

The book trust is working the country districts of Rock county these days.

G. S. Burdick has had ripe strawberries and raspberries and green corn this month.

Geo. F. Orcutt, of Watworth, was in the village this week.

Jerome Boyington, of Avalon, and Francis Williams and wife, of Delavan, were guests of Mr. and Mrs. J. B. Tracy, Wednesday.

Mrs. B. D. Wylie, of Yakima, Wash., is visiting at J. Burhan's.

Mrs. L. Hurley has gone to South Haven, Mich., to join her husband, Dr. Hurley.

W. R. Cleland and family will move into rooms in the Bulls block and W. H. Dunwell takes the Eldridge place.

J. G. Carr has been confined to the house by illness, but now convalescent.

Mrs. E. E. Campbell, of Watworth, is spending the week with her parents, Mr. and Mrs. A. D. Burdick.

The Crusaders close their meeting here tomorrow evening.

Mrs. T. W. North returned from her northern trip Friday.

Mr. Loofboro, an engineer on the R. & S. V. division of the Milwaukee road, is spending the week with his family here.

Dr. G. W. Post, of Chicago, visited Milton relatives Thursday.

Harlin Cary, of Janesville, was here Thursday on business.

**LEYDEN** Nov. 4.—The sale at A. W. Drafahl's was well attended and everything sold well. Mr. Drafahl has rented his farm but will reside here and continue in the machinery business.

Sunday morning about 5 o'clock the Leyden tower was burned to the ground the instruments and a few other things were saved. The fire is supposed to have originated from the sparks of an engine. Tower N. from near Devils Lake was brought here and set up Tuesday.

A number of young people from here attended the Sisters' fair in Janesville.

J. W. Howard, of Ft. Atkinson, was here Friday soliciting for the Do Laval Cream separator company.

O. W. Donkle has received a shipment of lumber and is busy unloading it.

The town is lively the past two weeks with farmers hauling and shipping their sugar beets. Some report an acreage of 16 tons.

Miss Ida Murray closed a successful term of school Friday, with a well rendered program.

Men from all parts of the state and from the adjoining states attended the sale of short horned cattle held at Mr. Walter Little's Wednesday afternoon.

Auctioneer R. W. Barclay and W. T. Dooley conducted the sale and some fancy prices were received. Mr. Little has made a specialty of short horns and in every way it has proved a success.

**ROCK RIVER** Nov. 4.—Ella Maryott is on the sick list.

Conn & Schmidt have sold their farm formerly the Old Pierce farm to A. E. Menz, of Milton Junction.

Mr. and Mrs. Fay Coon have rented a farm on the River road and moved there the past week.

August Weslan has rented Charley Balling's farm and will take possession in the spring.

Rev. Mills did not preach last week as reported, but will preach his first sermon next Sabbath.

The farmers are all taking advantage of the fine weather to husk the corn.

Mr. Cullen's people will move soon on A. E. Menz's farm recently bought of John Splitter.

**EMERALD GROVE** Nov. 5.—Mrs. Davidson and children arrived here on Tuesday.

George Davis and family have moved to this village and occupy the house with W. Koupleman.

Will Dean shipped two car loads of sheep on Tuesday night.

Mrs. Fitch entertained her sister-in-law, Mrs. J. Lester of Oakland, last week.

Mr. Yandry and family, of Cold Spring, are moving on the farm recently purchased by him of J. R. Lamb.

Mr. George Hanthorn is building a stone hog house on his farm.

W. J. Jones and wife visited Chicago last week Thursday.

Margaret Jones has recovered from scarlet fever and Daisy Dean is improving.

The Mystic Workers will gather at the home of Mrs. A. Bradt on Friday evening. Dancing will be the chief amusement of the evening. The Mystics always enjoy their gatherings and this one will not be an exception.

**FULTON** Nov. 5.—The town board of Fulton will meet at the clerk's office in Fulton at 10 a. m., Nov. 7th, and at 2 p. m., of same day will sell to highest bidder, in front of town hall, Indian Ford, the old planks from the Ford bridge.

Mrs. Jens Jensen and son spent Tuesday and Wednesday in Stoughton.

Mr. Robert Lee of Janesville spent a day here last week.

Miss Blanche Thompson of South Fulton, spent Sunday with her sister, Nettie, who is attending school here.

Alexander Ely, of Beloit and sister Hortense, of Madison, spent Saturday and Sunday with their parents.

The Omnia society will meet on Friday evening of this week in Main street hall.

Miss Alice Evans, of Janesville, is spending a few days with her sister, Mrs. James Sayre.

**INDIAN FORD** Nov. 5.—Miss Gertrude Tubbs is home from Janesville for a short vacation.

Mrs. Ida Muer is convalescent from a severe attack of pneumonia.

Marvin Bell's steam thrasher is threshing and shredding corn for John Scarlett this week. John Sherman is threshing for John Hurd.

Mrs. W. Scofield and daughter, who are visiting relatives in Osage, Ia., for two weeks.

Mrs. Breitkreutz of Tiffany, is spending a few days with her daughter, Mrs. Melr.

Chas. Goodrich and son, of Ft. Atkinson, Sunday with Ford relatives and friends.

L. Wood and wife returned Tuesday from Lake Koshkonong where they have been in camp for two weeks.

Geo. Whaley has moved his family into the house recently purchased from Samuel Hallett.

Michael Cunningham, of Edgerton, is doing the mason work on Grant Chamberlain's new barn. The basement is about completed.

All members of the I. O. G. T. lodge are requested to be present Saturday night at 8 o'clock sharp as important business is to come before the meeting.

Mrs. Alice McCann is quite low at this writing with little hopes of her recovery.

**CLINTON** Nov. 5.—Wedding bells rang merrily in Turtle Tuesday evening, Oct. 27 when Miss Emma Croswell and Dr. Robert Thomas were united in marriage by Rev. Crosswell, of Beloit, in the presence of near relatives and intimate friends. After a short visit to Milwaukee where the groom has a dental office. The young couple have many friends here who wish them every happiness.

Prof. George and class gave a very fine concert in the M. E. church last Tuesday evening. It is to be regretted that more of our singers did not improve the opportunity of taking lessons of so good an instructor.

Mrs. R. E. Loveland returned home last Thursday from a three weeks visit in Ohio.

A baby girl arrived at the home of Mr. and Mrs. H. A. Moehlenpach on last Wednesday morning.

Editor Helmer and wife returned from their eastern trip Sunday evening.

C. H. Schneider has opened a meat market in the Dobbins building on Front street.

The Baptists held their home annual supper at the church a week ago tonight. The program consisted of music by the choir, an interesting talk by J. T. Butler on his western trip, and an address by the former

pastor Rev. T. J. Parsons, who was warmly welcomed by all. The reports for the year showed a gain in membership of 14. \$90 given for missions. All bills of the year paid and a balance in the treasury.

Mrs. J. Pangborn is visiting a sister in Des Moines Ia.

James Hawarth went to Chicago on Wednesday where he will undergo an operation for appendicitis.

Miss Helen Terwilliger is visiting Mrs. Budlong and other friends.

Mesdames Collier and Swan will entertain a company of ladies at the home of Mrs. Collier this Thursday evening.

The annual Y. M. C. A. banquet was held at the hall, Oct. 30th. One hundred and fifty men sat down to a bountiful supper at 6:30. The new orchestra played several selections during the meal. After supper Prof. Kemmerer introduced Prof. Loveland as toastmaster who after a speech read a letter of regret from Judge Winslow. Songs by the Y. M. C. A. quartet, and speeches by Senator Whitehead, Judge Dunwiddle and Rev. T. J. Parsons, were enjoyed by all. After the program over \$200 was raised toward the association's expenses for the coming year. On Sunday evening the anniversary meeting was held at the Baptist church when reports were given out showing a good year's work. Assistant State Sec. Puelhler gave an address also Prof. Loveland and H. A. Moehlenpach.

Generally fair tonight and Saturday; warmer.

## NORMAL CONDITIONS.

As the results of last Tuesday's election are studied, it is not difficult to discover that the two great parties are absorbing other interests, and that political conditions are practically normal.

In Massachusetts the socialists were confident of 50,000 votes. They polled less than half that number. The republican victory in that state was a surprise to both parties and the 40,000 majority for Governor Bates is a flattering compliment to the party in an off year.

The summary of the Iowa vote shows that the socialists were only 5,000 strong, while the prohibition party, which at one time dictated the policy of the state cast less than 12,000 votes.

It is well for the country that these side issues are on the decline, and that the lines will be distinctly drawn between the two great parties in 1934.

The democratic victories in Maryland and New York City are significant, and indicate that the Bryan contingency has lost its grip and that old time democracy is again in the saddle.

Maryland, always considered a doubtful state, is now in control of Gorman, who is recognized as the most able leader in his party. His next colleague in the senate will be a democrat.

Tom Johnson discovered that Ohio would not stand for single tax and free trade theories, and it will require more than a circus tent and brass bands to keep him in the public eye.

The election next year will be fought on old lines, with no great national issue involved. Populism, Bryanism and national prohibition, have had their day.

While New York City like all other large cities, is democratic, it does not follow that the state, is tainted with the same disease. It has always been conceded that the state could overcome a majority of 100,000 in the city. It is true that the Morgan and trust interests are an unknown quantity, and that Roosevelt will be knifed in some quarters, but it is equally true that this vote is light when compared to the great mass of voters throughout the state.

The republican party has no occasion for alarm over the result of recent elections. Roosevelt will be nominated by acclamation, and elected by an old time majority if the party is loyal.

The Minnesota football team has gained an unenviable reputation as sluggers. The Michigan team was badly crippled last week, and Wisconsin has hardly recovered from the effects of last year's game. There may be glory in that kind of playing but it is too much on the prize ring order to command popular support.

A school teachers' union is the latest organization. Seven teachers in an Indiana township, struck the other day for more pay. Their places were soon filled and the world moves on. There are more teachers to the square inch, than any other class of employees, and it's a poor time to strike on the edge of winter.

District Attorney Jerome is about all that is left of the Tammany reform administration. The Rev. Parkhurst will again find plenty of opportunity to get in his work. New York City is satisfied, and like all other cities, she elects the class of men to office that please the majority.

The Dowle movement was a dismal failure. It is well for the country that the experiment was tested. There will be more common sense, and less Dowleism in the future. The race of weak minded men and women is on the increase and shaking up now and then is helpful.

Tom Johnson of Ohio may be a presidential possibility sometime, but it won't be next year. He lives in

a state that is levelheaded, and not noted for pushing to the front theoretical reformers.

The new republic of Panama will be knocking for admission in the near future, and then the anti-expansionists will have a chance to do some more kicking.

Janesville has four business men's clubs, and a municipal League. There is certainly no lack of organization.

## PRESS COMMENT.

Millwaukee News: Give the Rah, Rah boys room; they'll soon have to make a living.

Ashland Press: The people of Wisconsin have a great deal to be thankful for. They may not be to go through a political campaign this fall.

Green Bay Gazette: The fact that no state tax is to be levied in Wisconsin this fall is undoubtedly additional evidence to Governor La Follette that Wisconsin is going to the dogs.

Menasha Breeze: Senator Quarles is going to try to give the rural carriers a much needed raise. It is needed by the carriers and it is just like the big hearted and eloquent tongued senator to think of it.

La Crosse Chronicle: Any man who believes the man to nominate as republican candidate for governor is the man who enjoys a public confidence that will enable him to poll the party vote, commits himself to the theory that La Follette must not be the party nominee.

Tomahawk Tomahawk: The farmer is nearer out of the reach of the trusts than any other man in the world. He can burn his own wood, eat his own meat, eggs, mutton and Johnny-cake, and sleep under a roof that is not mortgaged to any corporation. Feel blue? No. The farmer is the happiest man in the universe.

Eau Claire Telegram: The La Crosse Chronicle says it is reported that a strong effort will be made in the next congress to discontinue appropriations to maintain navigation in the Mississippi above St. Louis, and that "outrageous as this proposition appears to be, it is beyond doubt true." There will be work ahead for members of both houses representing territory affected.

Millwaukee Press: The girls of Ann Arbor received good advice when they were told by the physical director of the university to beware of fudges. Fudges are a candy confection that tangle up the interior and play havoc with digestion. Not only college girls, but girls of every degree and station in life, would do well to beware of fudges and of all other confections. It is a bad thing to eat between meals.

Eau Claire Leader: The numerous robberies being committed all over the state is a sign that much gain is made here and is a cause for exultation in one respect. The plunder is taken and spent there. This is carrying the joke too far. It is about time this work was stopped even if it deprive the state papers of their stock of legitimate news. The state is being overrun by burglars and yegg men and no place seems to be safe from them.

Phillips Times: About every "off" year, or the year the legislature does not meet, we are informed through the partisan press that "there will be no state tax this year." Of course, it is pointed to in glaring head letters as an evidence that the then present administration is very economical. But such a cry is a fraud and delusion. When the taxpayer calls for his receipt he will find it has a very familiar appearance and that a portion of the tax he pays is paid to the state.

Fond du Lac Reporter: Senator Quarles has announced that he will make an effort to have the compensation of rural delivery carriers increased and doubtless the extra pay will be very acceptable to the carriers. While the senator is about it he might use his influence to hasten the putting into operation the different county systems already mapped out in Wisconsin. It has been fully demonstrated that properly conducted county systems of rural delivery are a saving over the old system of country postoffices and stage routes and this being the case there can be no expense for delay on the ground of expense. Fond du Lac county would be pleased to have the system recently mapped out, in operation soon.

MARKET TALK ON CHICAGO MARKET  
 Latest Gossip From the Chicago Grain Market After 1 O'clock.

Firmer opened wheat one-quarter higher. Heavy offerings at the opening started fresh liquidation in the December and broke that May 1 cent and one-quarter for the May 1. At the decline the buying was of the very best character, and continued so throughout the session, closing strong with a gain of three-eighths cent over last night's close for both options. Primary receipts 1,342,500 against 1,595,184 last year. The market showed considerable strength during the latter part of the session, New York reporting 53 loads taken for export and 25,000 No. 2 Red sold one cent over Dec. price. Duluth also reports 1,000,000 sold to go to Chicago. We believe wheat should do better and recommend buying on all recessions.

Corn  
 Corn opened strong, one-quarter higher with a good demand from commission houses and local scalp-

Flour  
 Flour opened strong, one-quarter higher. Heavy offerings at the opening started fresh liquidation in the December and broke that May 1 cent and one-quarter for the May 1. At the decline the buying was of the very best character, and continued so throughout the session, closing strong with a gain of three-eighths cent over last night's close for both options. FOR SALE—Hawkeye grub and stump machine. Inquire at this office.

Light offerings held the market firm throughout the session, closing strong about best prices of the day. Primary receipts 445,790 against 334,798 a year ago. We still feel very friendly to corn and believe it will do better and advise buying on all weak spots.

Oats  
 Oats opened firm in sympathy with corn. Light offerings kept the market strong throughout the day. Would recommend selling oats on all rallies.

Provisions market is slow. Prices a little easier in sympathy with hog market. Not much doing, the market closing weak, pork 15c lower, lard 45c lower.

FLOYD, CRAWFORD & CO.

On Hunting Trip: Messrs. D. Conger, Helms, and two sons, left yesterday for Winchee, a little station on the Wisconsin Central. They were to be joined there by two more companions who are to be with them on a deer-hunting expedition that will last from now until the end of the season. They will live in a camp built for them in the forest last year.

Interior Weather Cold: As occupants of the Jackman block, as well as the stores of William Hart, Archie Reid and Brown Bros., have been experiencing decidedly cold weather during the past two days. The water-tube of the steam-heater at the electric light works sprung a leak on Wednesday and repairs were not completed until this morning.

## FOOTBALL TALK FOR SATURDAY

HIGH SCHOOL MEETS FT. ATKINSON TEAM HERE.

## MILWAUKEE SCHOOLS OBJECT

Think They Have Been Discriminated Against by Chairman Parlin.

High school athletic matters are much mixed up over the rulings of Chairman Parlin of the state athletic board of control regarding the teams eligible to play for the title of the state championship. Both east and south division high schools of Milwaukee claim they have been discriminated against. The real trouble lies in the fact that owing to the Parlin schedule the east and south side Milwaukee teams are both without a game this Saturday and next.

When the schedule was announced the games between the two Milwaukee teams and the Janesville team were cancelled. It is known that the east side high school team tried to have the Fort Atkinson team cancel its game here Saturday and play them and the south side team wants a game with Fort Atkinson on Nov. 21. These two schools do not talk rebelling from the W. L. A. but they say hard things about the choice of Janesville over the two Milwaukee teams and the cancelling of their games with the Bower City players.

**Ft. Atkinson Crippled**  
The following is a dispatch from Fort Atkinson dated this morning: Fort Atkinson will play Janesville at Janesville next Saturday, instead of East Side at Milwaukee, owing to the ruling by the board of control made public this morning. The team is not in good shape, as the injuries of Asplund and Roberts are more serious than was supposed. It is doubtful as to whether they can go in the game Saturday. The probable lineup is: Howard, left end; Ferris, left tackle; Bachus, right guard; Stehmi, center; Krebs, right guard; Banker, right tackle; May, right end; Asplund, or Snover, quarterback; Sullivan, left halfback; Roberts or Rhebeck, right halfback; Griffin or Dietz, fullback.

**Northern Games**  
Kaukauna, Wis., Nov. 6.—The football game between Kaukauna and Marinette in the high school state championship series will be played here Saturday. Both teams are unbeaten, and while the Marinette team is heavier, the Kaukauna boys believe they have the greater speed. The game promises to be a splendid battle. Guy Goodsell of Lawrence university and the Rev. Mr. Brigham of this city are named as the officials. The game will be attended by a large number of enthusiastic rooters of both teams and also by many Appleton people.

**Eau Claire-Tomah**  
Eau Claire, Nov. 6.—The Eau Claire high school football team will play Tomah here Saturday afternoon. It promises to be the hardest and fastest game seen here since Madison was defeated two years ago. The chances appear about even. Both teams are strong and determined to win. There is much interest here, because if Eau Claire high school is beaten it will be out of the contest for the state championship.

## EX-GOVERNOR LEWIS IS CRITICALLY ILL

Man Whose Destiny Has Been Followed in "Forty Years Ago" Column of Late is Not Far From Death.

Readers of the Gazette who have been following the "Forty Years Ago" column this week are acquainted with the fact that four decades ago last Tuesday there occurred in this state one of the most crucial elections in its history. James T. Lewis was the republican union nominee for governor and pitted against him was H. L. Palmer, the candidate of the "copperhead" democracy. The election was bitterly fought out and Lewis was elected by over 10,000 majority on the home vote, as recorded in Wednesday's Gazette. The returns from the soldiers, as we follow them day by day, are not all in.

On Tuesday, November 3, 1903, just forty years after his election, a dispatch sent out from Columbus, Wisconsin, states that "the venerable ex-Gov. Lewis, whose health has been failing for some time, is not far from death. He is now in his 84th year and, although he sustained a stroke of paralysis some years ago, he has until recently taken part in the public affairs of his community. He was elected governor in 1863 by 25,000 majority."

**Sentence Suspended:** Henry Carlson will have a chance to reform yet if the wilds of Dakota can help him. It will be remembered that Carlson's appetite got the better of his judgment and he borrowed a thirty-cent plug of tobacco to help his digestive organs. He was arrested and this afternoon pleaded guilty but Judge Fifelet allowed him ten days to make all arrangements to leave the climate of Janesville for his health and journey into the land of the Dakotas where he has some relatives living. Carlson will leave.

**Heavy Damages:** The case of Kate Mattick vs. the city of Janesville has been filed with the clerk of the court. The plaintiff claims damages to the amount of \$1800, caused by the defective sewer at the Five Points.

**Coming**  
The "Silent Workman" at Connel's cigar store soon.

## PRETTY CEREMONY AT MILTON JUNCTION

Miss Mary Mullen Weds William Kennedy of Johnstown Tuesday Last.

Mary H. Mullen of Milton Junction and William Kennedy of Johnstown were married at St. Mary's church, Milton Junction, at 9 a. m., Nov. 3, by Rev. J. P. Paschong in the presence of a large number of relatives and friends at High Mass. The song service was rendered by Mrs. Will Zwicker and Miss Mamie Ditz of Fort Atkinson. After the ceremony the bride and groom accompanied by members of the two families, repaired to the home of the bride; after partaking of a wedding breakfast the time was spent in social chat and music until the happy couple took the 4:30 train for Milwaukee. After a few days they will return and take up their residence at the home of the groom who is a rising young farmer of Rock Prairie.

## FUTURE EVENTS

Christian Science lecture at opera house Nov. 6.  
Ben Hur banquet Nov. 12.  
"Down by the Sea" at opera house Nov. 7.  
"Under Southern Skies" at opera house Nov. 10.

Those who have experienced trouble with their eyes and have not been fitted properly to glasses should take time Saturday to call on W. F. Hayes, at F. C. Cook & Co.'s. Mr. Hayes is an eye specialist whose work is known by many in this vicinity during the past few years.

## SOUTHERN COURTS STRANGE DOINGS

Rock County Attorney Tells Of Divorce Proceedings in Southern Courts.

Harry Sloan, the Evansville attorney, has been spending the winter in the south, and incidentally, "studying its jurisprudence."

"I was in court in Georgia for a day or two," he said, "and when it comes to colored divorce suits you ought to see the court grind them out like they were coming from a coffee mill. I remember one man who got up to tell his story. He was certainly the homeliest looking colored man that ever came down to show what the native raw material can do when it comes to getting up a caricature on the human race. He started to tell his story of connubial abuse and put in a smile to lighten up the gloom. The 'judge' actually shuddered at the grin, and turning hastily to the court clerk, said: 'Enter a judgment of divorce. If he is not entitled to one his wife certainly is. That face of his would spoil the disposition of an angel.'"

—Milwaukee Sentinel.

**Tonight's Lecture**  
Mr. Bicknell Young, the lecturer on Christian Science, comes here as an authorized representative of his denomination. He has a commanding presence, a very distinct enunciation, is very clear in his statements and is in every way a finished orator. He confines his argument to truths which no reasonable man can gainsay, yet he presents them in a new light which makes the commonplaces of religion become suddenly great practical working forces of every day life. It is the power and attractiveness of the simple truths of the Bible, which all Christians love and revere; that he seeks to show, by proving that these truths are at once scientific and capable of being used to meet all human needs, when honestly applied. The hour spent at listening to this lecture will certainly be one long remembered by the unprejudiced mind.

**To Hold Special Meeting:** This evening the Unique club will hold a special business meeting at 7:30 o'clock.

## STATE CROPS ARE NOT VERY GOOD

LAST REPORT OF SECRETARY TRUE IS DISCOURAGING.

## POTATOES ARE RCTING

It is Less Than an Average Year For The Farmers in General.

According to the last state crop report of the present year issued yesterday by John M. True, secretary of the state board of agriculture, the season now closed was poorer than the average for returns from the farms. This was due to the prevalence, almost throughout the entire summer, of cold and wet weather, inducing prolific and rank growth of straw in grain crops, with poor ripening and much loss by rust and laying of the crops, also disastrous rotting of the considerably increased acreage of potatoes that were planted this year in Wisconsin. The report was made from data from all the counties.

In the tobacco crop the returns are good. The average yield per acre was 1,550 pounds. If the moderately low price of 8 cents per pound were received the return per acre would be \$124 which is more than the average price of the farming land. The report is as follows:

**Less Than Average Year.**  
"The season of 1903 falls below the average, both in the yield per acre of most Wisconsin farm crops, as also in the quality of product. The cold wet weather that has prevailed throughout the summer, caused too rank a growth of straw with the small grains, resulting in damage from lodging and rust, and rendering the harvesting and securing of the crops extremely difficult. As a result the yield per acre is less than that of last year and the quality is also inferior. This is especially the case with oats, which were badly shrunken by rust, and have also been seriously damaged in the stack. Most of the grain is light and inferior in feeding value."

"Though in much of the southern part of the state no severe frost came until late in October, even here little corn is up to the standard either in yield or quality; while in the central and northern parts of the state, where a killing frost came earlier, conditions are worse. At no time during the summer was the weather such as to rapidly develop the crop."

**Light Potato Crop.**  
"Potatoes, which up to the first of September promised well, have since that time rotted so badly as to make the crop the lightest harvested in the state for many years. Even those being marketed have to be subjected to the closest scrutiny. The quality of those free from rot, is fair. The only crops that have been excellent are those of grass and hay, though considerable trouble was experienced in securing the later crop, on account of rain. A large proportion of the farmers of the state are interested in dairying, and to these the abundant pasturage has brought rich returns."

**Foresters' Team.** M. W. A. give their first masquerade of the season Tuesday night, Nov. 24, at Central hall. Baldwin and Rehfeld's orchestra will render the music. Two umbrellas will be given to the lady and gentleman wearing the best costumes. An atomizer will be given to the lady wearing the most comical costume and a Parker fountain pen to the gentleman in the best comic attire.

**K. P. Meeting:** Work in the second rank will be part of the Knights of Pythias' meeting tonight.

## A-THIRTY POUND PICKERAL IN NET

Seine in Lake Koshkonong Brings Odd Things and Big Fish to Surface.

Those who have been at Lake Koshkonong of late have been much interested in the operations with the big seine which are being carried on there. Catching fish on such a large scale is an unusual operation and the huge net at each haul brings many curious mosses, shells and specimens of the finny tribe to the surface. A Janesville man who arrived in town this morning was present the other day when the net was brought to the top of the water after a long drag and says that it is a great sight. At times hundreds of fish, embracing all the varieties found in the lake, are brought to the top wriggling in the meshes and mixed with weeds, mosses and reeds for which this body of water is famous. Great dogfish weighing from ten to fifty pounds are found captive and the other day a fine pickerel which tipped the scales at thirty pounds was brought out of the depths. When the men picked up the big fish and threw him over into the open water, he opened his mouth wide enough to swallow a small dog, one man said, and then swam leisurely away.

## NEWS OF A PERSONAL NATURE.

Geo. G. Sutherland and M. G. Jeffris have returned from Grant county, where they have been on business.

Mrs. Hickox, who has been visiting Miss Mac Valentine, for the past week, has returned to Kaukauna, Ill.

Phil Ohlweiler, Paul Olson and Ed. Dermody will leave tomorrow on a deer hunting trip to Washburn county.

A. C. Larson, who is connected with the Central Life Assurance Co., has moved his family to this city, where he will in the future reside.

Mrs. Martha Barber of Horsehead, N. Y., is visiting her friend, Mrs. R. J. Bennett, of 56 Cherry street.

## HAND CAR CREWS NARROW ESCAPE

SIX MEN JUMPED JUST IN TIME TO SAVE LIVES YESTERDAY.

## CAUGHT IN CENTRE AVE. CUT

By Switch Engine Rushing to The Pickle Factory. Hand Car Completely Demolished.

As Section Foreman Kuhlo and his crew of five Italian track laborers rounded the cut by the Center avenue wagon-bridge shortly before noon yesterday, they were horrified to see, bearing down on them with terrific speed, switch-engine No. 737 and two box cars which she was pulling in front of her. The men gave a series of piercing yells and jumped for their lives. So narrow was the escape that one of the track-laborers, frightened out of his wits, did not stop running until he had gained a hill a quarter of a mile from the scene of the collision.

**Hand-Car Demolished**  
After it was all over the crew sadly picked up the remnants of the faithful hand-car and put them in a bushel basket. Even the number of the little vehicle had disappeared. The tools with which it had been loaded were stuck in the end freight car like harpoons. Several of them were lodged securely between the sand-board and the springs and it required some time to get them out. Foreman Kuhlo has been working on the railroad for nineteen years and this is the first time in his life that he was ever caught on the tracks with a hand-car.

**Race to Pickle Factory**  
Switch-engine 737 had just got clear of passenger 521 when she left the yard tower at five minutes to twelve, travelling on an order against an extra. It was up to her to make time and she did it. Two car-loads of pickles were awaiting her at the Hohenadel factory. The St. Paul road has a spur to that factory. Hence, when the North-Western receives an order from that direction it is the thing to let no time slip by before filling it. The engineer was just going to put down the brakes and send a man through the cut to see if the track was clear, when the hand-car hove in view.

**Pasteurized Milk**  
People not familiar with the process of pasteurizing sometimes confound it with sterilizing, but the two differ materially. Sterilization requires a much greater application of heat without the rapid cooling process, and this so changes the chemical conditions as to render the milk indigestible for many people, especially for infants, besides making it unpalatable.

Pasteurized milk and cream possess all their natural elements, the chemical condition and flavor remaining unchanged. All disease germs, such as tuberculosis, typhoid, diphtheria, certain intestinal diseases of children, and many others of which milk is so free a conveyor are eliminated, making it a safe and proper food for infants, invalids and all classes.

Pasteurization is a process due to the researches of a great French scientist, Louis Pasteur, who first employed it and from whom comes the name by which it is known. The process consists in heating milk to a 165 degrees Fahrenheit temperature at which temperature it is held for a few seconds only. It is then immediately cooled, almost to the freezing point. The later step is quite as essential as is that of heating, the milk undergoing a change of 110 degrees temperature within ten seconds. It is this sudden heating and cooling process that kills the germ life deleterious to health.

## Coming Attractions.

"Down by the Sea" which will be at the Myers Grand Saturday matinee and night is a romantic comedy drama full of human interest, one which by turns arouses in the audience nearly all of the human passion now one is filled with hatred of the father for trying to force his daughter into marriage which she abhors; now one is moved to deepest pity for the daughter, who at the risk of losing the love and esteem of her husband, keeps a promise made to her father not to betray him; again, the antics of the Jew keep the audience in uproars of laughter. Withal it is just the kind of show that pleases the masses. The scenic effects are very elaborate and the electrical storm at sea is said to be a startling bit of stage realism. The company is extraordinarily large and includes many well known and talented people. The engagement is limited to.

Gleeson's Big Minstrels will be at the Myers Grand for an engagement of one night soon and presents a choice collection of mirth, provoking and novelty acts never seen here before. Every phase of good minstrelsy and vaudeville is presented, while the program is crowded with big hits in the way of latest songs, dances, comedians, aerialists, wire walkers, jugglers, expert musicians and a

## WITH LINK AND PIN.

North-Western Road.  
Two thinly clad women with a couple of battered baby carriages were picking up coal and wood along the North-Western tracks this morning. The carriages were left near the machine shops while the women darted to and from the coal chutes and the wood piles. Railroad men who observed them made no comment other than "Well, they have to do something this weather." A man driving a white horse carried away quite a load of coal yesterday.

General Fire Inspector McDonald visited the shops this morning.

General Superintendent W. D. Cantillon and Robert Quayle, general superintendent of motive power, expected here this noon. They are on their way to Fond du Lac to attend a meeting of the foremen of the various departments of the Ashland division, which is to be held tonight. Supt. Quayle will deliver a lecture at the meeting.

Several changes have been made in the force at the round house. Frank Sullivan has resumed his old position as caller; Neil Sullivan who has been store keeper is now dispatcher's helper; and Robert Lee who has been acting as caller is now assistant clerk.

Engineer J. M. Smith of the south end way freight, Nos. 588 and 575, is off duty. Engineer Fred Shumway of the Barrington run is relieving him.

Engineer R. H. Erdman of the northern Wisconsin division is off duty. Engineer A. L. Wilcox is relieving him.

George Madden, an old Janesville boy who has been working on a run out of Chicago, has been assigned as fireman of Engine 1 in place of J. Murphy who has been sick since the first of April.

Frank Menogue who has been acting as day dispatcher today took the passenger run between Des Plaines and Chicago.

Fireman Elmer Townsend of the Barrington run is off duty. Emil Gruel is relieving him.

Operator W. E. Mitchell who came here to relieve Operator Wells at the night desk at the yard tower during Day Operator Bligham's absence resigned his position at twelve o'clock last night. Night Operator Woodbury of Shopiere was sent to relieve him for the time being and the office at Shopiere will take the office this evening.

Switch-engine No. 1000 ran off the track near the Schiltz Brewing Co.'s warehouse this morning and broke one of her side brakes. The mishap was caused by the spreading of the rails. It required only a few moments to get her back into place again.

Car-Smith Peter Mick is in Rockford. Will Boaze is relieving him.

District Passenger Agent W. W. Winton was at the depot today.

Ctr Foreman August Abendroth is laying off today on account of illness.

Locomotive 814 which hauls one of the freights on the Mineral Point division is having new flues and cylinder pipes installed at the roundhouse.

Five hunters left yesterday, ten will leave Saturday, and twelve will leave Sunday for the north over the St. Paul road. Most of the nimrods are looking for deer and their destination is in the vicinity of Phillips, Wis.

General Railroad News  
Several appointments were made by D. L. Bush, general superintendent of the Chicago, Milwaukee & St. Paul road, to take effect Nov. 7. E. Laas, who has been superintendent of construction on the new cut-off

from Davenport to Ottumwa, is made superintendent of the Kansas City division and E. D. Wright, who held that place, is transferred to the northern division with headquarters in Milwaukee. B. F. Van Vleet is temporarily assigned to duties in the office of the general superintendent. E. D. Wright was once trainmaster on the Prairie du Chien division. He left Milwaukee sixteen years ago to become assistant and afterwards superintendent of the Racine & Southwestern division. B. F. Van Vleet came to Milwaukee four years ago from Mason, City, Ia., where he had been train master on the Iowa & Dakota division. He will leave his family in this city for the present.

Miss Minnie Victorson, the young leading woman of "Under the Southern Skies" company, which will open at the Myers Grand opera house soon is prosecuting a search for a lost brother in every city in which she plays. Miss Victorson's career is surrounded by romance. Her mother was the daughter of a Spaniard, a remarkable linguist. Samor Zumala, who held a court appointment at St. Petersburg, as official examiner of foreign newspapers and publications. The daughter of Senor Victorson, married Count Victor Sonvoroff. Within three years the Count was sent to Siberia on a political charge. The family, in charge of Senor Zumala, fled hastily, but the infant son, who was in charge of a trusted nurse, disappeared together with the nurse, the daughter and mother arriving safely in the United States. In Boston the Countess was known by the Americanized name of Victorson. A few years ago the family learned that the nurse and infant son had also come to America, but Miss Victorson has been unable to secure a trace of them.

from Davenport to Ottumwa, is made superintendent of the Kansas City division and E. D. Wright, who held that place, is transferred to the northern division with headquarters in Milwaukee. B. F. Van Vleet is temporarily assigned to duties in the office of the general superintendent. E. D. Wright was once trainmaster on the Prairie du Chien division. He left Milwaukee sixteen years ago to become assistant and afterwards superintendent of the Racine & Southwestern division. B. F. Van Vleet came to Milwaukee four years ago from Mason, City, Ia., where he had been train master on the Iowa & Dakota division. He will leave his family in this city for the present.

To get rid of the numerous complications involved in the use of party rates, a proposition was made at the meeting of the Western Passenger association yesterday to abolish them entirely in territory west of the Mississippi river.

H. O. Halsted, formerly agent of the Pere Marquette road at Toledo, has been appointed superintendent of the new Detroit district, embracing 400 miles of track. His headquarters will be at Plymouth, Mich.

Transcontinental roads have already reached an agreement regarding colonist rates for 1904. They will be in effect to Pacific coast points during March and April and from Sept. 15 to Oct. 15.

A. M. Peck, travelling auditor of the Nebraska and Wyoming division of the North-Western road, has resigned. He will take charge of the station at Rochelle, Ill.

Howard Morris' attorney for the Wisconsin Central road, has returned from New York where he attended the annual meeting of the directors of the road.

The Milwaukee road has taken off a number of telegraph operators at points between Ortonville and Fargo, N. D., to the displeasure of passengers.

At a special meeting of the board of directors of the Lake Shore and Michigan Southern railway in New York yesterday the road was authorized to issue ultimately when needed \$5,000,000 of 4 per cent, debenture bonds.

Asa Miller, in charge of the work on the Guayaquil and Quito railway in Ecuador, is in San Francisco and says that work has been abandoned and it is unlikely the line will be extended to Quito for several years, if ever. The road has now reached Guanabato.

The Wabash will place in service this morning the largest hauling locomotive in the passenger service out of Chicago. This will be one of the twelve locomotives ordered for the Chicago-St. Louis service and is guaranteed by its makers to run at the rate of eighty miles an hour with a ten-car train.

President E. P. Ripley of the Santa Fe is now inspecting the California branch of the road on his way to inspect the work of filling in China basin in San Francisco, on which the company is spending over \$2,000,000. Reports submitted to him at the Los Angeles office concerning shipments from southern California during the season just opened show that there will be sent east 1,500 car loads of celery, 3,000 cars of lemons and about 24,000 car loads of oranges.

Please look at Mrs. Austin's New Dress.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box.

Names Two Judges.

Washington, Nov. 6.—The president has appointed Daniel Thew Wright of Cincinnati to be justice of the Supreme court of the District of Columbia, vice Justice Hagner, resigned. He also re-appointed James A. Gill on the Supreme bench of Indian territory.

MAN'S BEST FRIEND—Dr. Mutter's Quick Cure for Lost Marrow. Acts immediately. It does the business. Sample free. Kraigco Chemist, Dept. 106, N. La. Ave., Wis.

## LABOR TALK FOR WORKMEN

Gossip From All Over.

According to official statements just published there were in Russia, at the beginning of 1902, 17,786 industrial establishments employing 1,710,375 persons, of whom 73.2 per cent were males and 26.8 per cent females.

The Sydney (Australia) Boot Trade union has decided to appeal to the Arbitration court. The union insists upon a minimum weekly wage of \$12.50, but the employees will not agree to a higher minimum than \$10.50.

In Pittsburg, Pa., has been officially announced that the Window Glass Workers' association loaned the Federation Window Glass company \$75,000 without interest, to enable that company to carry its stock of glass.

The demands made by the 1,000 canners employed in the Chicago packing houses for an increase of 2 1/2 per cent, in wages has been refused by the packers, who notified the union that it would be impossible to offer any concessions.

Hawaiian sugar planters threaten to flood the islands with 10,000 Korean laborers, and the union labor element in the islands will petition congress to pass an act excluding Asiatic labor.

There has been a large increase of female employees in recent years, the total between the years of 1896 and 1902 being 52.77 per cent. The average work day for the female is 9 1/2 hours.

The initiation fee of the Coal Miners' union of Missouri is \$50 and many workmen are deterred from membership because of their inability to secure this amount of money.

The employees of Public Service corporation, which controls a great system of trolley lines in and around Newark, N. J., have voted overwhelmingly against a strike on the company's system.

The Great Northern railroad, at St. Paul, Minn., has settled the difficulty with its 800 engineers and firemen, by granting a slight increase in wages and making the scale the same as the Northern Pacific.

Two Chicago unions of the United Garment Workers of America were recently granted an injunction to prevent interference on the part of employers and rival unions. Unjust discrimination is charged.

WE, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

# Jeffries' Future.

## The Champion Pugilist May Seek Matches Abroad Should Idleness Continue.

Jim Jeffries may be forced to go to a foreign country to make money with his fists unless some new pugilistic star suddenly springs to the front. The champion already has his eye on South Africa, where Kid McCoy and Jack Everhardt found the picking so good. If he goes to the land of the Boers, it will be for the reason that he prefers the limelight of the ring to that of the stage.

Jeffries spent several days in Chicago recently and talked about his future. He has not yet made any plans and is probably much as Fitzsimmons describes him—a man who does not make up his mind until about two days before he does a fight. Jeffries has had his choice of four propositions. He can go on the stage with Fitzsimmons or Corbett or by himself. He can forego the stage and meet such men as have the nerve to fight him. He can remain idle or he can go abroad.

The first proposition does not particularly appeal to Jeffries. He is not in love with the business of doing a turn in connection with a show. It goes all right for a few weeks, but Jeff gets tired of it long before the winter ends. Besides, it is an inducement to take life too easy.

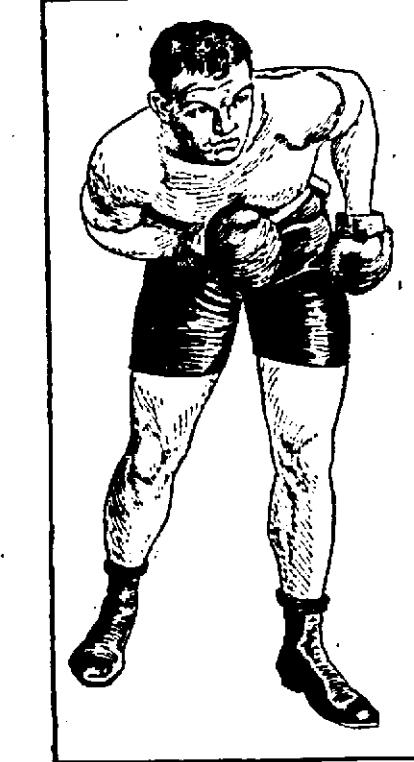

The second proposition does not carry any glittering prospects with it. It might take on Jack Munroe, but the newspapers would call the bout a plain case of murder, and Munroe would not draw enough to make the affair pay any great amount of money. After Munroe there is really no one to meet. The best he could do would be to take on other marks, and

such business would quickly be played out. Jeff can see little in fighting the men that this country can now furnish as opponents.

The third prospect—that of remaining idle—does not naturally appeal to a man who can make money. Jeffries is fairly well fixed, but has not saved so much of his money that he can afford to shut off his income. There is no chance that he will do nothing.

The proposed trip to foreign countries just now looks like the best opening to Jeffries, and he will probably make up his mind shortly as to what he will do.

Many of the good fighters of the last twenty years have tried the game abroad, and some of them have made good money at it. John L. Sullivan went to France to fight Charley Mitchell. That was, of course, a good business proposition, and Jeffries has no chance for such an engagement. Kid McCoy probably made as much money as any man who ever sought fights in another country. He went to South Africa in 1896 and came home with a lot more money than he had when he went away. In one fight in Johannesburg he made a considerable sum of money. He met Bill Doherty, an Australian middle weight, and the purse which was given for the bout was \$10,000.

JAMES J. JEFFRIES AND HIS FAMOUS CROUCH.

The drivers who won over \$10,000 on the grand circuit last season are twelve in number and include: Hudson, \$61,070; Geers, \$55,095; Snow, \$25,880; Curry, \$20,550; Walker, \$18,875; Wilson, \$15,150; Doble, \$12,000; Lon McDonald, \$11,430; Shank, \$11,125; Hussey, \$10,900; Miller, \$10,720; Cox, \$10,432.

**Fast American Mare For Italy.**  
Roy Miller, trainer for R. H. Plant of Macon, Ga., recently sold at Lexington, Ky., the seven-year-old bay mare Duell Cor, 2:08½, by Baron Wilkes, to Fulvia George of Modena, Italy. This mare will be raced in the old country, and she should be able to hold her own over the water. The price paid was \$5,000.

**Barnett Wants Gore.**  
Jerry Barnett, the New-York feather weight, who returned from England a short time ago, is after a match with some of the 124 or 126 pounders.

**Sail Moxie, 2:12 1-4.**  
Moxie, 2:12½, back all the way from Europe, has been sold by Jack McGettigan, Toledo, O., to George Carson, Grand Rapids, Mich.

**COURT LENIENT TO KILLORAN**  
Imposes Light Sentence on Robber of Postmaster Ridgely.

Springfield, Ill., Nov. 6.—Joseph Killoran, the famous all-round crook and postoffice robber, who with Harry Russell, George Carson, Sid Yennie and Charles Allen, robbed the private office of Postmaster H. M. Ridgely in this city on April 3, 1895, has been sentenced to the penitentiary at Chester for one year at hard labor. Killoran was an object of pity as he stood up for sentence. His hair was white, his constitution shattered by confinement, and his face bore many marks, the result of the encounters with the officers of the law. Former Postmaster Ridgely asked for leniency for Killoran.

**BREAKS HIS NECK AT FUNERAL**  
Pallbearer Falls From Porch and is Picked Up a Corpse.

Danville, Ill., Nov. 6.—As he was about to grasp a handle on the casket at the funeral of Mrs. L. D. Lane, pallbearer Albert Goldman, justice of the peace, and prominent member in Odd Fellowship, residing at Henning, in this county, fell off the porch and broke his neck. He is believed to have suffered an attack of heart failure.

**ROOSEVELT MAY HUNT LIONS**  
Veteran Guide Urges President to Go to Colorado.

Denver, Colo., Nov. 6.—John B. Goff, the veteran guide who accompanied President Roosevelt on his famous Colorado lion hunt, recently wrote Mr. Roosevelt that the mountain lion and other predatory animals were being killed off rapidly and urged him to come out for a hunt before they are exterminated. Goff received a prompt response from the president, the contents of which he refused to divulge, but the fact that he is gathering up all the crack dogs of western Colorado and putting his hunting camp in aspenside order indicates that the president may join him for a lion hunt during the holiday recess of congress.

**RECOVERS LOSSES IN OPTIONS**  
Precedent Affecting Board of Trade Deals Established by Court.

Bloomington, Ill., Nov. 6.—A jury in the McLean County Circuit Court gave Oscar E. Green of Saybrook a verdict for \$5,000 damages. He sued to recover money lost on the Chicago Board of Trade and an important precedent was established which may enable all future losers in this form of transaction to recover. The defense asserted that there was a bona fide sale of grain, while the plaintiff argued that only options were purchased.

**WILL ENGAGE IN BIG WOLF HUNT**  
Annual Event in Kankakee Marshes 1st Set for Nov. 25.

Laporte, Ind., Nov. 6.—The annual wolf hunt in the Kankakee marshes in the southern part of this county will take place the day before Thanksgiving and will be the greatest event of its kind ever held in the Kankakee district. All the hunters and dogs in this county with many from other counties will participate in the day's sport. The wolves are unusually plentiful this year and the ground is dry.

**POLITICIAN IS SENT TO PRISON**  
Adolph Fein Is Convicted of Naturalization Fraud.

St. Louis, Mo., Nov. 6.—Adolph Fein, a well known politician, was convicted in the United States District court here of participating in election frauds. He was sentenced to five years in prison, with a fine of \$1,000. Fein was formerly secretary of the Hebrew union of the Jefferson club, a political organization. He will go to prison at once, as there is no appeal. After the adjournment of court Fein's wife severely pummeled Abram Gottesman, a witness, as he emerged from the courtroom. It was with difficulty that friends succeeded in dragging Gottesman away.

**SENATE IN FAVOR OF LOTTERY**  
Cuban Legislators, However, Cannot Overcome Palma's Veto.

Havana, Nov. 6.—The senate took up the national lottery bill and passed the first article. It is believed that the bill will pass both houses of congress, but the majorities in its favor will not be sufficient to override the certain veto of President Palma. The Cuban national lottery bill has been put forward as a substitute for the taxes levied on sugar, tobacco, liquors and matches under the new soldiers' pay law. During the last session of congress President Palma declared his intention of vetoing the bill should its advocates succeed in passing it through the houses.

**Quieting Drug Yilla.**  
Cleveland, O., Nov. 6.—Allen Ludwig was poisoned by a dose of morphine, administered, the police say, by his wife in an attempt to quiet her husband.

**TELEGRAPHIC BREVITIES.**  
F. W. Perrin of Albion, Mich., was killed by the cars at Parma while walking on the track.

Henry Wormley was found dead in his woodshed at Aurora, Ill. He was an old resident and apparently died from heart disease.

**Fatal Street Fight.**  
Ashley, Ill., Nov. 6.—In a street fight between Marshal Berry Smith and Frank, Charles and Josh Knight, Charles was fatally wounded and Josh was shot in the thigh.

**Cashier Goes to Jail.**  
Circleville, O., Nov. 6.—Because Honduras looked too desolate John K. Brown, the defaulting cashier of the Union Banking company of New Holland, Ohio, returned to America and has been jailed here.

**Abandon Ecuador Road.**  
San Francisco, Nov. 6.—Asa Miller, in charge of the work on the Guayaquil & Quito Railway in Ecuador, has arrived at San Francisco. He says that work on the road has been abandoned.

**Find \$500 in Match Safe.**  
Pinckneyville, Ill., Nov. 6.—While examining some old clothes of her deceased husband, Mrs. Charles Miller found a \$500 bill in a match safe.

**Elopes With Mother-in-Law.**  
Gainesville, Ga., Nov. 6.—Professor M. H. Mincey of Hard's Institute eloped to Atlanta with the mother of his deceased bride and was married.

**Buy American Steel.**  
London, Nov. 6.—The steelmakers of Swansea, Newport and Llanellyn, Wales, have bought 100,000 tons of American steel bars at £4 a ton.

**Drowns Herself and Child.**  
Emporia, Kan., Nov. 6.—Mrs. Low Marks, wife of a prominent farmer near here, drowned herself and infant child.

# Twelve Million Men and Women Have Catarrh

This is an age of specialists. The day has passed when the family doctor undertook the cure of all diseases. The physician of to-day knows that the successful treatment of certain diseases demands extensive preparation outside of the regular medical school course, and experience which a general practice does not give.

When his diagnosis shows such a disease, he advises his patient to consult a specialist—a doctor who has devoted his entire time to the study and treatment of this particular disorder.

Such a disease is catarrh. The physician might treat it successfully, but he knows the chances are against him.

On the other hand, he knows that under the care of the specialist the probabilities of the sufferer's recovery will be multiplied—that he will be cured if human skill can cure him.

**REXALL MUCU-TONE** is the discovery of a group of the most famous catarrh specialists in the world. It is a positive and permanent cure for the disease which for so many years defied science.

Catarrh is the most insidious, most dangerous disease that menaces mankind, and from which in one form or another no less than 12,000,000 men and women in this country are sufferers.

Catarrh is a disease of the mucous membranes—the membranes which line the passages of the head, throat, stomach, and the various other organs of the body.

In its simplest form it is known as a "cold," but a "cold" neglected causes catarrh of the head in its most terrible forms.

Catarrh of the head unchecked quickly becomes catarrh of the throat; then catarrh of the bronchial tubes, and consumption, the dread disease that annually brings death to more than two hundred thousand people.

Then there is catarrh of the intestines, of the kidneys, the liver and the generative organs. But whatever organ affected, catarrh is a disease of the mucous membranes.

Until now catarrh has been treated generally. Science sought in vain for the specific—the exact combination of medicinal drugs necessary to effect a prompt, safe, permanent cure.

Scientific men fought catarrh with indifferent success. Where they could reach the seat of the trouble they used sprays, snuffs, ointments, etc.

Where they could not reach the diseased parts they gave merely a general system tonic.

The local treatment often dispelled the symptoms temporarily, but did not cure. The poison was sealed in and would necessarily break out again.

The tonic had a bracing effect for a short time, but only postponed the inevitable result.

Years and years of time, and thousands and thousands of dollars, have been spent in vain efforts to discover the remedy that would permanently cure this terrible disease.

**SCIENCE HAS WON SUCCESS.**  
It remained for a group of famous scientists—physicians and pharmacologists—working in the laboratories of the United Drug Co. at Boston, Mass., to discover the great vital principle which is now revolutionizing the treatment of catarrh throughout the civilized world.

This principle is embodied EXCLUSIVELY in the remedy which we are providing to sufferers under the name of **REXALL MUCU-TONE**.

As catarrh develops the mucous membranes become highly inflamed, the mucous cells become packed with poisons which through their swollen and torpid condition they are unable to throw off. A nauseating discharge follows, and the poison, picked up by the blood, is carried throughout the entire system.

**THE REXALL METHOD.**  
Rexall Mucu-Tone is a powerful alternative which attacks the seat of the disease. It is carried through the arteries and veins direct to the mucous membranes, causing the swollen and poisoned mucous cells to release and expel the matter contained.

This relieves the congestion; the inflammation abates and the mucous cells once more take up their regular functions. The discharge ceases; the mucous membranes are thoroughly cleansed and the various organs are restored to perfect health.

This is the new way of treating catarrh—the only way in which it can be actually and positively cured.

Rexall Mucu-Tone is the only remedy in the world that will do this.

**MUCU-TONE NOT A "CURE-ALL."**  
It is not a therapeutic "jack-of-all-trades"—not a remedy that will cure everything from typhoid fever to broken leg. It is a specific only for the cure of catarrh and diseases arising from catarrhal conditions.

Mucu-Tone is compounded in the laboratories of the United Drug Co., at Boston, Mass., by the most skilled pharmacists and chemists in the world.

You could not find a better remedy for catarrh if you spent \$50,000.00 in the search.

Rexall Mucu-Tone cures more healths than all other diseases combined. It is the "SNEAK THIEF OF HEALTH."

Catarrh has no regular mode of attack. It may develop in the stomach, kidneys, bowels, generative organs, the throat, nose and bronchial tubes, and before the victim realizes its presence will have begun its work of undermining his health and sowing the seeds for years of torture.

The warning signs are pain in the part attacked—in the back, stomach, head, chest, throat, kidneys, liver or other organs. In almost every case, however, the symptoms differ.

Have you pains in your head or throat or in your side, back or stomach?  
Are you dizzy? Do you see floating spots before your eyes?  
Does your heart palpitate?  
Do you feel depressed?  
Do you feel "blue"? Are you nervous or your bowels out of order?  
Do you feel exhausted and generally run down?  
Are you weak, pale and emaciated?  
These symptoms indicate the presence of catarrh. Read our offer and take advantage of it before it is too late.

**REXALL MUCU-TONE CURES CATARRH IN EVERY FORM.**  
Mucu-Tone acts on the blood, on the nerves and on the diseased mucous membrane. It purifies and invigorates the blood. It builds up the weakened nerves, and heals the sore membrane. As a tonic its effect is prompt and permanent. It does not merely key you up. It supplies nutrition and nerve force; feeds the weakened system; brings you quickly back to health and vigor.

**OUR LIBERAL OFFER.**  
We want every sufferer to know from experience that Mucu-Tone will positively cure catarrh, no matter where located or how long standing. Through our close connection with the United Drug Co., we have persuaded them to give away free a limited number of 8-oz. trial bottles of Mucu-Tone. Every catarrh sufferer should immediately fill in this coupon and send it to the United Drug Co.

We want to cure you so you will tell your friends of Mucu-Tone.

SEND THIS COUPON TO-DAY

Medical Department, United Drug Co., Boston, Mass.

Please give me, free of all charges, in accordance with your offer, one 8-oz. bottle of Rexall Mucu-Tone. You may also have your specialists write me in a plain envelope, a personal letter of advice, which is also to be free.

**SMITH DRUG CO.**

**RUMOR CAUSES RUN ON BANK**  
Depositor Thought It Had Failed Because Closed on Election Day.

Amsterdam, N. Y., Nov. 6.—A run was begun on the Amsterdam Savings Bank at noon Thursday and continued until 3 o'clock, when the bank closed after nearly \$25,000 in deposits had been withdrawn. The run was caused by a rumor circulated by a Police resident who, finding the bank closed on election day, took it for granted that it had failed. The rush at the bank became so great that it was necessary to call the police to maintain order. It is known that the bank is strong, having a large surplus.

**President's Appointments.**  
Washington, Nov. 6.—President Roosevelt will send the list of federal appointments he has made since the adjournment of the last congress to the senate Tuesday next. Both houses of congress are to be left entirely free to organize on the first day of the session.

**Convict Suffocates.**  
Columbus, O., Nov. 6.—William Joy, a Cleveland burglar, was suffocated to death at the penitentiary. Joy crawled under the gas house to find a leak and was overcome.

**Gather Remains in Basket.**  
Marquette, Mich., Nov. 6.—Because of a trivial family quarrel John Link, a well to do farmer, went into a field seated himself on two sticks of dynamite, and lit the fuse. A searching party gathered up his remains in a basket.

**Negroes Quit Liberia.**  
New York, Nov. 6.—On the steamship Majestic, which arrived here, were twelve negroes who went to Liberia to experiment in cotton culture with the view of future colonization. They state the experiment was a failure.

**Good Roads Legislation.**  
Washington Nov. 6.—After seeing President Roosevelt, W. H. Moore, president of the National Good Roads association, stated that no serious efforts would be made at the coming session of congress to secure federal good roads legislation.

**Slander Suit.**  
Jackson, Miss., Nov. 6.—As a sequel to the breach of promise suit against former Senator W. V. Sullivan of Mississippi by May L. Leaton, Sullivan is made defendant in a \$50,000 slander suit by the woman, now a Mrs. Amis.

**Find \$500 in Match Safe.**  
Pinckneyville, Ill., Nov. 6.—While examining some old clothes of her deceased husband, Mrs. Charles Miller found a \$500 bill in a match safe.

**Elopes With Mother-in-Law.**  
Gainesville, Ga., Nov. 6.—Professor M. H. Mincey of Hard's Institute eloped to Atlanta with the mother of his deceased bride and was married.

**Buy American Steel.**  
London, Nov. 6.—The steelmakers of Swansea, Newport and Llanellyn, Wales, have bought 100,000 tons of American steel bars at £4 a ton.

**Drowns Herself and Child.**  
Emporia, Kan., Nov. 6.—Mrs. Low Marks, wife of a prominent farmer near here, drowned herself and infant child.

**REXALL MUCU-TONE CURES CATARRH IN EVERY FORM.**  
Mucu-Tone acts on the blood, on the nerves and on the diseased mucous membrane. It purifies and invigorates the blood. It builds up the weakened nerves, and heals the sore membrane. As a tonic its effect is prompt and permanent. It does not merely key you up. It supplies nutrition and nerve force; feeds the weakened system; brings you quickly back to health and vigor.

**DETECTIVES GUARD CAR SHOPS**  
Pennsylvania Employees Quit and Strike-Breakers Are Employed.

Indianapolis, Ind., Nov. 6.—Twenty-two armed detectives are guarding the Pennsylvania Railroad company's shops here. The boiler-makers have struck and workmen have been brought here from Chicago to take their places. An effort was made by the strikers to enter the shops to induce the machinists to strike, but they were driven away. The strikers ask for an advance in wages equal to that recently made by the Big Four.

**COMMITTS ARSON AND SUICIDE**  
Former Ocean Liner Captain Fires Barr and Drinks Acid.

New York, Nov. 6.—Word has been received here of the sensational suicide of Capt. William H. Thompson, the most trusted commanders in the employ of the American steamship line Capt. Thompson killed himself with muriatic acid at Green Farms, Conn. After having set fire to the barn of Thomas Jennings, whom he considered an enemy.

**Very Low Rates to International Live Stock Exposition at Chicago.**  
Via the North-Western Line. Excursion tickets will be sold Nov. 29, 30, and Dec. 1, limited to Dec. 7, inclusive. Apply to agents Chicago & North-Western R'y.

**C.M. & St. Paul Ry.**  
Round Trip Excursion Tickets to St. Paul and Minneapolis  
\$14.00 round trip via the Chicago, Milwaukee and St. Paul Ry. Tickets on sale daily to St. Paul and Minneapolis, Minn., until November 30, 1903. Tickets limited to return until December 15, 1903

**Round Trip And One Way Excursion Tickets.**  
The Chicago, Milwaukee and St. Paul Railway will sell round trip homeseekers excursion tickets Oct. 6th, and 20th, November 3d and 17th at one fare plus \$2.00 for the round trip to many points in Iowa, North and South Dakota, Minnesota and points in Northern Wisconsin and Special Reduced Excursion Rates. Will be in effect from all points via the Chicago, Milwaukee and St. Paul Railway for the occasions named below:

Chicago, Ill., November 28 to December 5, 1903. International Live Stock exposition.

For information as to rates, dates, of sale, limits, etc., of these and other occasions call upon the ticket agent of the C. M. & St. P. R'y. Phone 191.

**Chicago, Milwaukee & St. Paul, R. R.**  
Commencing September 16, until November 30th, 1903, one-way colonist excursion tickets will be sold daily at \$33.45 to points in California, including San Francisco, Los Angeles and San Diego. \$31.80 to Portland, Ore., Tacoma and Seattle, Wash., Victoria, Vancouver, B. C., and intermediate points. \$27.80 to points in Montana. \$22.80 to Billings, Mont., Ogden and Salt Lake City, Utah; Pocatello, Ida., and intermediate points.

Please look at Mrs. Austin's New Dress.

**THE NORTH-WESTERN RAILWAY**  
Excursions to the Northwest, West and Southwest, and Colonist Low Rates West.

Via the North-Western Line. Excursion tickets at greatly reduced rates are on sale to the territory indicated above. Standard and tourist sleeping cars, free reclining chair cars and "The Best of Everything." For dates of sale and full particulars apply to agents Chicago & North-Western R'y.

**Very Low Rates to International Live Stock Exposition at Chicago.**  
Via the North-Western Line. Excursion tickets will be sold Nov. 29, 30, and Dec. 1, limited to Dec. 7, inclusive. Apply to agents Chicago & North-Western R'y.

MARKET TALK IN  
CHICAGO MARKETSCattle And Other Stock Prices Quot-  
For The Benefit Of The  
Readers.

Cattle—Our receipts of cattle this week, up to the present time, are over 9,000 less than last week—but prices have suffered just the same. The best cattle are not much different from closing prices last week but all other kinds are 10c to 25c lower, the greater part of the decline coming today, and the lowest part of the day right at the close when buyers were bidding 20c lower than yesterday for the undesirable kinds. Top at this writing (one o'clock) is \$5.60.

Butcher stuff suffered with steers even though prices are now at the lowest point of the season. We are getting too much of all classes of cattle but the proportion of cows seems to be larger than ever, consequently, that kind has suffered worse than others. The future for this class does not look as if we would get much higher prices during this month.

The labor question is cutting some figure in our market just now, as some unions are out and others are debating whether to strike, so until this question is settled we cannot expect a very sharp demand for any kind of stock. However, both sides have made concessions and it now looks as if a solution would soon be found.

Hogs—October receipts were the highest of the year and yet prices declined about \$1.00 per cwt., and this month so far they have taken off 20 to 35c. Today the decline was 10c to 15c notwithstanding the fact that receipts this week are over 7,000 below same time last week. Packing hogs sold today mostly from \$4.50 to \$4.70, light \$4.90 to \$5.10, shippers and butchers \$4.90 to \$5.10 with a top up to \$5.20. Eastern markets are now being supplied with hogs right near home at prices proportionately below us, consequently, our shipping demand this week has shut right off to practically nothing, which has left the situation entirely in the hands of the packers and they do revel in such opportunities and seem to show no conscience when bidding on our hogs.

Sheep—Our receipts last Monday were 57,350, within 1,982 of the record of Sept. 29th, 1903. While prices suffered some Monday they held up remarkably well considering the excessive run. Our market today was 10c to 15c lower with the choice kinds showing the least decline. Feeding lambs are now off 20c since Monday and can be bought mostly from \$1.00 to \$1.25. Yours very respectfully, Daniels, Wells & Carpenter.

STRANGE OCTOBER  
FOR THE CROPSThink of Growing Strawberries  
Green Corn and Rasp-  
berries.

When one stops to think of it the month of October just closed was one of the most remarkable periods of any year of recent decades. Not only were many crops of second growth strawberries on sale in the local market but also raspberries found their way onto many a Rock county table. Now comes the latest phenomena in the shape of a crop of green corn which was grown by Mr. G. S. Burdick, near Milton, and which was as sweet and juicy as that grown earlier in the year. Pansies have grown and bloomed out of doors up to Monday last and perhaps a few beds are yet flowering despite the cold nights. When one stops to consider the average temperature of Wisconsin at this time of the year the facts above recorded are indeed remarkable.

Extraordinary Shoe  
Sacrifice...Closing out of a new line of Ladies' \$5, \$4 50 and \$4  
shoes at\$3.00 For  
Choice

There is every reason to believe that this entire stock of new Fall Shoes which we offer at a sacrifice will be closed out quickly. We absolutely will not handle the line in the future, and the slash we have made in price is convincing argument of our intention. The story is simple—goods that were ordered for delivery in September have only just arrived, two months late. Rather than have them returned—the manufacturer allowed a liberal discount, and we give you the benefit of their loss.

These Shoes are as Staple as Gold.

Every pair is new Patent Colt, Patent Leather, Vici Kid, Enamels Both lace and button, the chance for a bargain of the season.

Sixty pair \$3 00 Shoes \$2.35 These were to sell at \$3 and are  
go at ..... a part of the same line.

First National Bank D. J. Luby & Co.

last evening and confirms the plans as outlined several weeks ago for the rebuilding of the Goodwin House into a huge office structure. Mrs. F. Field said: "I have authorized no statement concerning the building, as my plans are yet indefinite and the architects have made no report. To do what I have in mind will cost a very large sum of money—probably reaching near to \$25,000—and it is not yet clear that it will be a wise investment. I have received much encouragement in the matter and it really does look as if a good number of offices could be rented. If the work is undertaken, it will be well done."

Mrs. F. Field then said that she thought that seventy-five offices could be provided. They will be modern in every respect and the most attractive in the city as the ceilings are very high and the arrangement imposing. An elevator will be installed and the block will be made one of the best in Beloit.

An Error Made: Through a typographical error the Gazette last night announced that R. M. Bostwick was to be one of the purchasers of the Myers Hotel property. It should have read J. M. Bostwick.

Art League Reception: A reception will be given by the Janesville Art League in the Caledonian rooms Friday, Nov. 13th, from three to five o'clock. Refreshments will be served during the afternoon.

James Lamb and wife left for South Dakota where Mr. Lamb will look after his interests there.

## IT'S A FACT

Did you ever stop to think that your business is judged by your stationery and any other printed matter you may send out from time to time? It's a fact.

You may have cheap looking printed matter in your office, and at the same time you may be paying high prices for it.

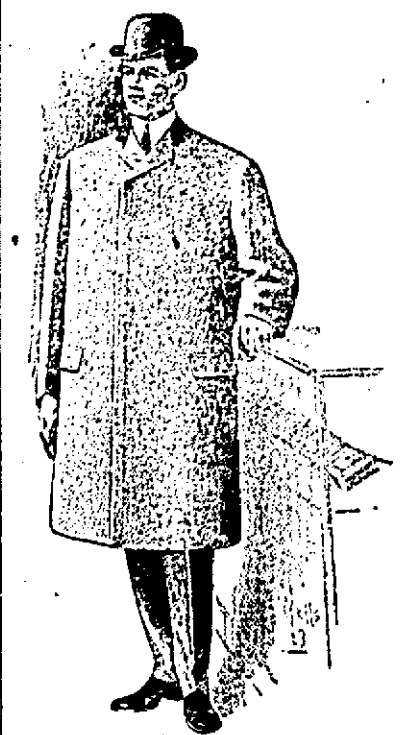

The Gazette Printing Co. has one of the best equipped plants in the state and is prepared to do the finest kind of printing at moderate prices.

Great Stock Of  
Cloaks.

It is saying a great deal when we proclaim that our stock of Winter Coats is the most complete we've ever shown. With so many merchants talking "Cloaks" one may not know just where to turn. The largest assortment can be seen at The Big Store. Garments for women, misses, children, infants,—all bought with great care from reliable makers.

FURS—All previous efforts outdone. They sell easy because have the kind people want at prices that are lower than is common. Scarfs, Boas, Capes, Jackets, Muffs, Children's Sets, Baby Cab Robes.

Our Furs Impress Thousands.
